WANTED.—Position as salesman for saw or planing mill machinery manufacturer. Have represented some of the best houses in my line, and have a wide acquaintance with the trade. No. 623.

The Practical Side. The men whose Hoo-Hoo names appear in the notices below are out of work and want employment. This is intended as a permanent department of THE BULLETIN, through which to make these facts known. It is, or should be, read by several thousand business men

The 1897 Dues. Since the publishing in July "Bulletin" of the list of those members who had not yet paid 1897 dues, several hundred remittances have been received. As we are exceedingly anxious, however, to get in as many of these dues as possible before we go to Detroit, the list is again published. While greatly reduced from last issue, it is still a formidable one. Every member who is not absolutely sure that he holds a receipt for his current year's dues, is urged to glance over the list and see if it contains his number. As remittances are being received in large numbers by every mail it is unavoidable that a considerable number of men will see their names in this list after their dues have been paid. If you happen to be one of these men do not become offended, but wait patiently and see if a receipt for your dues does not duly come to hand, showing that same has been properly received and credited. Bear in mind, furthermore, that this is not a list of delinquents. Every man has until September 9th in which to pay up his dues. We know that in nearly every case, however, of a man not remitting his dues, it is merely an oversight, and the publication of the list is merely an effort to collect as much of the dues as possible, and at the smallest expense.

Proxies! Proxies! Every member of the Order has been mailed a proxy blank to be filled out and sent to his Vicegerent. The Vicegerents uniformly report that very few proxies are coming in. This is not as it should be. Grave questions will come up for discussion and decision at Detroit, and the welfare of the Order certainly requires that whatever action is taken there shall represent the wishes of as large a portion of the membership as possible. This issue of "The Bulletin" contains, as a supplement, a proxy blank. Immediately on receipt of this paper fill out the blank and mail it to your Vicegerent, whose address is given on the front page of this paper. It will take but a moment's time. Do not fail to attend to this.

Some Timely Remarks.

Editor of Hoo-Hoo Bulletin: These discursive remarks, suggested by recent articles in the "Bulletin" bearing on the future of the Order, are offered more as food for thought than as an argument for or against any particular policy.

The vital point to be remembered in discussing any proposed action on the part of the Order is that its purposes are purely social. The institution is not a benevolent one—not protective. It has no business aims. What it may effect in either or all of these directions can be measured only when we know the extent to which the assistance men give each other, and the kindly feeling they have for their fellows, are prompted by social intercourse and friendship. While the business advantages of such an association may perhaps be overrated in some of our "on-the-roof" speech-making, there can be no question of possible benefit. But to carry out the original object of Hoo-Hoo, these effects must be incidental. To engraft any other aim, any thing in the direction of active business, any thing not distinctly in the "social" line, this means revolution, the republic becomes an empire.

I apprehend that the feeling of unrest indicated in some of the communications addressed to the "Bulletin," and the want of interest complained of, are largely due to the condition which is responsible for many of the troubles of the business world—over-production. Has there not been too much anxiety for a "record" as to numbers brought into the fold, too much solicitation, too fast a growth? Do not zealous Vicegerents expect too much in the way of "interest?"

To revert to an earlier period of our history, say while we were under the original 990 mark, was it not the impression of most of us that when there were stated or called meetings of lumber associations, if enough candidates presented themselves concatenations would be held as a sort of relaxative round-off to business? Owing to the expansion of the Order and the widely distant points at which lumber associations meet, in the absence of lodges it seemed necessary to have official representatives in the different States, but was not the idea that this was primarily to do the work that might come rather than to strive to make work? In this view can it be said that a member who attends concatenations where he happens to be, pays his dues, reads the "Bulletin," and goes to the annual meeting, if possible, is falling in interest?

It is said there is nothing in the concatenations. Granted. There is not intended to be much. A Vicegerent invites Hoo-Hoo from all directions to attend a concatenation; prospective candidates, nine to fifteen. There is a gathering, the candidates dwindle down to two, the expected operating officials are "non est," the posts, if necessary, are filled by men unfamiliar with the work; the affair does not go off smoothly, and unless there is a stirring up "on the roof" everybody is tired. This is not descriptive of all, nor of the majority of concatenations, but it is of too many.

Now, suppose it were made reasonably sure that applicants would be present, that officials selected were thoroughly acquainted with their duties, is there not enough in the ritual as it stands, or is there not the ability in the Order to put enough into it, to make an occasional concatenation—once a year, or twice, or thrice, or even more—interesting, apart from the "on-the-roof," which is susceptible of unlimited interest?

Besides, the vital point as to our one original purpose, there is something else to be borne in mind—a truth welded by experience and reason into an axiom—what we get cheap is cheap. The moral is, that it ought not to be easy to get into the Order. While it is well to suggest membership, no man should be urged. Let the soliciting come from the other side.

Undoubtedly there is room for moralizing over occurrences in connection with Hoo-Hoo which have unfavorably impressed many members, and which, to some extent, have resulted in loss of interest in the Order. But we won't go into this line on paper. When we get together let us talk matters over and see if we can't persuade each other to try to show how good Hoo-Hoo can be, and that in spite of outside misconception and internal weariness, it is worth 99 cents a year after all.

Good of Hoo-Hoo.

DULUTH, MINN., July 25, 1897.—I read with a great deal of interest the articles in the last issue of "The Bulletin" from Brothers 2 and 1421, and fully agree with them that Hoo-Hoo is good enough for us all just as it is. We have an Order unlike any other in the world, and if the ties that bind us together are not strong enough to hold, then there are no ties that will. Hoo-Hoo has done more good in its short life than can ever be told and is still doing good work every day. I belong to several Orders that have an insurance feature and would strongly oppose any such a scheme in Hoo-Hoo. It would break the Order up sooner than anything else. If the members who have found no good in the Order and think it is doing no good will only put their shoulders to the wheel and work for the good of the Order, they will find plenty of good in it and also find ties strong enough to hold us together forever. We read in each issue the notices of our more unfortunate brothers who are out of employment and want work. We all know that a man to be a Hoo-Hoo must have some ability in his line of business before he can join the Order, but for some cause or other they are thrown out of work, many times not of their own fault. When we read these notices let us put our heads together and try and find something for them to do. In this way we make them stronger Hoo-Hoo and also feel better ourselves, and glad of the honor of being a member of an Order that looks out for its living members and does not wait until they die to help their families. We can do them and their families more good by helping them to a position than by paying their dependants a sum of money when they die. Let each and every member remember his initiation and his promises then to the ones who walked in the light of Hoo-Hoo land, and put his button in the lapel of his coat and look around and see if there is not a Hoo-Hoo whom he can help. Remember we did not, or should not have joined the Order for our own good, but for the purpose of being one of a band of brothers to help each other. There is enough in Hoo-Hoo if we will only follow the paths to make it one of the brightest stars among the many different Orders, and all that is needed is to be more careful of the class of men we initiate, being sure they are eligible before initiation, for this has hurt us more than anything else. Now let us all join hands, march on Detroit, enjoy the good things they are going to give us; put our heads together and our shoulders to the wheel and work hard for Hoo-Hoo, and then we can all join together and sing, "I am glad that I am a Hoo-Hoo," in the true meaning.

There is no doubt some dissatisfaction, and "The Bulletin" and the annual meetings are good places to bring them up, see what there is in them, and dispose of the matter. It would be of great good if the different members would take more interest and write what they think of Hoo-Hoo for "The Bulletin." In this way we can all know where the other fellow stands.

I firmly believe that an insurance feature to the Order would kill it quicker than anything else and would fight it, but should the majority want to try it I am willing to bow to them, but as far as I can see in Hoo-Hoo it is good enough just as it is. All Orders are what their members make them, and we have no fear from without and the only fear is from within our own gardens.

2876.

Brother Coulson Will Hold Another.

W. A. Coulson, Vicegerent for the Southern District of Mississippi, advises us that he has a class of ten or more worked up which he will initiate on September 8th. He will by no means content himself with initiation of the men whose blanks he has already filled out, but is actively at work to increase his class. He writes that there are a dozen saw-mills in close proximity to Moss Point who are not yet represented in the Order, but who only wait a favorable opportunity. It is his intention to give them this opportunity on the eve of the expiration of his term of office.

MICHIGAN.

Detroit, Sept. 9-10-11.

To ANY HOO-HOO, GREETING:

The cat and all the kittens are headed for Detroit. Everybody is coming and you wouldn't like to become the odd one by staying at home. While there may be good stumpage on other sections, there is no need of running risks by looking elsewhere when you know we are cutting nothing but the best. If you are looking for a summer outing in the most beautiful city on the continent, with a climate that is away above grade, a population containing less cull than can be found elsewhere, a river that could float the season's cut of the entire country, and surrounded by pleasure resorts that would lure the angels out of paradise, then all you have to do is get yourself shipped f. o. b. to Detroit.

The local brethren have shut down their mills, closed the yards, and are prepared to put in their time making things lively for all members of the ancient and concatenated Order. The cat has her back up, and the temperature is going to rise from the time the first visitor arrives and gives the grand hailingsign of thirst until the last weary but happy brother has been cross-pled and left to dry out at the close of festivities. There isn't a sill in the floor that won't respond to the pressure of your foot, nor a shingle on the roof that won't take pleasure in sheltering the guests from afar, who are coming to break bread and bottles with the Snark's loyal subjects in the City of the Straits. The show in the main tent will open up on September 9 and will close September 11, but those who come earlier or stay later will find plenty of sights for their entertainment, with competent guides to see that they are neither overcharged nor underfed.

JOHN J. MARTEN, Sec.

Where We Will Stay.

The following extract from a handsomely illustrated folder issued by the city of Detroit about the hotel accommodations there, is of interest just now:

"One of the strongest points of the Convention City, the one that has done so much toward making her famous, is the numerous large modern hostleries. Here the hundreds and thousands of convention visitors are made at home—well fed and cared for by the accommodating landlords who love to aid in making your meetings successful. If there is another city in

the country the size of Detroit having as many fine hotels, it has never been discovered.

"The downtown houses, of which there is a score or more, can accommodate several thousand; on electric lines are accommodations for 10,000 visitors in high-class hotels, an advantage which no other city in the country can offer to the convention world. As an instance of the ability of the Convention City, 50,000 strangers have been cared for, well and good, at one time, without overcrowding. We can do it again at any time with three days' notice.

"The location of any hotel is easy to find, as Detroiters take pleasure in making strangers feel at home. Rates are never raised, no matter how large the crowd, as it is against the rule of Detroit landlords."

Why You Should Go.

There will be a very large attendance at the Sixth Annual Meeting at Detroit, Mich. There can be no reasonable doubt about that, because there are so many cogent reasons why there should be. In the first place, the Concatenated Order of Hoo-Hoo has outgrown, both in number of members and in importance and influence, the expectations of the founders. It has achieved a national name and reputation within a shorter length of time than any other order ever inaugurated in this country. It has attained a larger membership in proportion to the number of people eligible for the honor than any other order or association, and did it within about five years. Unlike most other social and beneficial organizations, it contains no features whatever that will stir up opposition or incur hostility from any source. Even the non-eligible masses who are in hopeless darkness as to the internal affairs of the Order, are hearty well-wishers, and hope for its long life and happiness. Every member that possibly can should attend the Sixth Annual. The phenomenal increase of membership during the past year or so has developed new conditions that require careful consideration and wise action. In a multitude of counsels there is wisdom, we are told. So every member who has the good of the Order at heart should make a strong effort to be present at the Annual. It is no hardship. Most all other social or business orders and associations provide for weekly or monthly meetings, and while attendance upon them is not compulsory, except in special cases, yet the members are expected to attend regularly. In Hoo-Hoo the members are not required or expected to attend any meetings except the Annual.

While the business features of the Detroit meeting will be highly interesting and important, the programme for the social features is on a truly royal scale, as will be seen by perusal of the programme. The excursion on the lakes will be an event never to be forgotten, especially by those whose lines are cast in the interior of this vast country, far from the sea-shore or any large body of water. The Annual will furnish an opportunity for sight-seeing and pleasure that will not be duplicated for a long time, if ever.

Safety, Comfort and Speed.

With the Detroit & Cleveland Steam Navigation Company safety, comfort and speed are the prime considerations. The five steamers of its Lake Erie and Lake Huron divisions are of steel, practically new, constructed in the strongest possible manner, propelled by powerful engines, and are the largest and

fastest side-wheelers on the lakes. Equipped with a complete system of water-tight compartments to prevent sinking in the event of accident, with a fine outfit of life boats, rafts and life preservers, and handled by a crew of thoroughly skilled, reliable men, the element of safety is raised to the highest attainable maximum.

As to comfort—the main cabins are broad, roomy, elegantly finished in mahogany, thoroughly ventilated, lighted by electricity, and furnished only as trained judgment and money can furnish them. The staterooms, with their double berths, and the parlors have room in abundance, are well aired, electric lighted, have the best of mattresses and blankets, and the whole are well cared for by skilled feminine hands. Also equipped with barber shop, bath rooms, etc. The large dining room has seating capacity for 110 persons, and is situated aft below the main deck. It is ventilated by the McCreary system of pipes, which pass through packed ice. As the kitchens are forward of the dining room, and connected with it only by hall-

ways and swinging doors, all suggestions of the mixed and undesirable odors produced therein is removed from the other parts of the boat. Served at a price that barely covers the cost of producing it, the cuisine equals that provided in the best hotels, and the service is prompt and intelligent.

In the construction and subsequent operation of these splendid steamers every device that human ingenuity has suggested has, after practical test, been placed in use. From stem to stern

from wheel to wheel, they are, to use an expressive street phrase, "up to date."

Let's Take Our Fishing Tackle.

The trip to Mackinac Island, about which a good deal is printed on another page of this issue, will be the entertainment feature of the Annual Meeting at Detroit. It will surpass, as an entertainment feature, anything ever attempted at a previous meeting. It is a magnificent steamship journey of 750 miles on one of the finest steamers that plies the waters of any country. The cost of the trip is but a very modest sum indeed, and the pleasure of it, permitting as it will of a closer acquaintance than is even possible at the business sessions of the Annual, is absolutely beyond computation. Let's all go to Detroit with the intention of making this trip. In order, furthermore, that the committee at Detroit, who have worked so indefatigably to provide us this entertainment, may know what to expect, let us all send our little \$5 to Mr. J. J. Marten at once, to the end that he may buy up the berths on the steamer leaving Detroit Saturday night, September 11th, to the very best ad-

vantage. Mr. Marten's address is J. J. Marten, Secretary, 33 Lafayette Avenue, Detroit, Mich.

In conclusion, the place where we are going is the most famous fishing ground in the world. It is the place where you can catch big fish whether you are a fisherman or not, luck or no luck. The writer speaks from a piscatorial experience of nearly a quarter of a century when he says that fishing is the hardest work in the world, when well followed. But it is also the most strangely fascinating. There are trout at Mackinac, perch at Mackinac, and pickerel, too. But greater than all is the lordly muscalonge, that wolf of the inland waters, the monster of the lidless eye. Let's all take our fishing tackle, plenty of chewing tobacco, and lay the foundations for fish yarns for all time to come.

What of the Future?

Some of us here in the bailiwick of Eastern New York have been noting with much interest a tendency lately to inquire a little more closely than ever before into the aims and objects of Hoo-Hoo, and the reason for the existence of this our cherished Order.

Without any desire to "sit down upon" any of our brethren who have suggested an accident insurance idea, we candidly do not think such an insurance feature would catch on well in many places. However, as this is not proposed as a compulsory but as an elective feature, it may possibly be practicable without materially changing the existing order of things. But the undersigned believe that another object could be found, a thoroughly practical and worthy one, too. And it does not have the features to which many members would object in life or accident insurance on the mutual plan.

We would suggest, in the first place, that by the payment, on initiation, of a stipulated sum, in addition to the regular fee, an amount something like \$27 in all, though the exact amount can definitely be determined later, a Hoo-Hoo could become a life member, the stipulated amount in addition being in lieu of all dues thereafter. In the same way those who are already members could become life members by paying into the Hoo-Hoo treasury a sum equal to the difference between the sum total of what they have already paid and the \$27, or other amount stipulated. Such a sum in every case would be a principal more than ample to produce sufficient income to meet and take care of all dues as they now mature on the present basis.

And such a plan would save the individual members lots of trouble as well as the official Scrivenoter an enormous expense. Speaking for ourselves, we would not willingly depart from Hoo-Hoo, but we cannot disguise from ourselves the fact that the trouble of looking after such a small assessment year after year, when it could be got rid of at one stroke, is an unmitigated nuisance to us and to many others.

This would also save a great mass of clerical work and consequent clerk hire on the part of the Scrivenoter, large bills for printing and stationery, and postage to an enormous total. Did you ever realize that it takes \$50 and over for plain postal cards alone, to say nothing of expense of printing and addressing, to send a single brief announcement of dues to every member? Many old members would pay up and become life members at once, and thus cut off a large item of expense, and many new members coming in would pay the full amount in their first enthusiasm. It would do away entirely with the matter of that class of delinquents who are so only on account of neglect, and not by lack of intention to pay, about which we hear from time to time. It would, to a large extent, effectually reduce the possible delinquent list. At the same time, it is not proposed to make the feature compulsory, but elective.

If only, say one half the present membership, or less, took advantage of the new feature, the respective dues of these for all time would not only be provided for by the income from respective amounts paid in, but also look what a fund in hand!

There are other advantages which we will discuss at the proper time, and will not go farther into detail now, except to

say that our idea is that this fund should be in the hands of the Supreme Nine, ex-officio, with the Snark of the Universe as chairman, and with the members of the House of the Ancients as an advisory body, and all steps taken to be by concurrence of both bodies. This would insure proper and successful investment of all funds. If one half the membership took advantage of the new plan at its adoption it would produce the sum of nearly if not quite \$35,000, a handsome nucleus to which there would continually be large accessions by new and old members. This could be invested in a Hoo-Hoo office building in some centrally located city, a building worthy the name, producing a good income and giving Hoo-Hoo ample offices and a permanent abiding place rent free. This idea alone is one whose valuable features can be indefinitely enlarged upon. Suffice it that some such plan would put Hoo-Hoo on a solid financial basis for all time, and practically insure an income, for the additional reason that many large items of expense under the present plan would be cut off. The Scrivenoter could be put in charge at a good enough salary, so that a competent man could be secured to give his time and attention exclusively.

By the way, do not be alarmed. This is no "job." We have no candidate in view, but any good man will be acceptable who can give his whole time.

With Hoo-Hoo thus firmly established on a sound financial basis, we think no further "object" is needed other than that of "health, happiness and long life," which, summed up, means good fellowship among lumbermen and all eligibles. We are willing to submit to No. 2 or any other old number if this is not true.

The difference between adopting or not adopting some such plan, it is now by many agreed, is the difference between decadence on one hand and continued prosperity on the other. We are for prosperity every time, and all honor to No. 658, No. 804, No. 1704, and others who have had the courage to speak out in meeting with a plea for prosperity and a plan to remedy "the fatal defect."

We certainly are not alone in believing that some such plan can be devised which, together with the motto of "health, happiness and long life," will preserve to us all a society which we would not willingly, or without determined efforts, see languish and die.

In token hereof we hereby give notice that we shall move, at the next annual meeting, in Detroit, to expunge from the Constitution all paragraphs not in harmony herewith, and for the adoption of the life membership plan on substantially the lines here set forth.

Also They Can Hear the Bed Tick.

According to an article in the "Lumber Department" of the "Southern Industrial and Lumber Review," of Austin, Texas, of which department Brother Carl F. Drake is editor, one C. W. Hill, of Antigo, Wis., has established a Hoo-Hoo hotel, for which he publishes the following code of rules:

- "Board, \$50 per week; meals extra.
- "Guests are requested not to speak to the dumb waiter.
- "Guests wishing to get up without being called can have self-raising flour for supper.
- "Guests wishing to do a little driving will find hammer and nails in the closet.
- "If your room gets too warm open the window and see the fire escape.
- "If you are fond of athletics and like good jumping, lift the mattress and see the bed spring.
- "If your lamp goes out take a feather out of the pillow, that's light enough for any room.
- "Any one troubled with nightmare will find a halter on the bed post.
- "Don't worry about paying your bill, the house is supported by the foundation."

THE CONDITIONS.

The conditions under which this reduced rate has been granted, and which will have to be complied with in order to receive the reduction on return ticket, are as follows:

FIRST.—Each person must purchase (not more than three days prior to the date of the meeting, nor later than two days after the first day of the meeting) a first-class ticket (either unlimited or limited) to the place of meeting, for which he will pay the regular tariff fare of not less than 75 cents, and upon receipt the ticket agent will issue to him a certificate of such purchase, properly filled up and signed by said ticket agent.

SECOND.—If through tickets cannot be secured at the starting point, the person will purchase at the nearest point where such through tickets can be obtained, and there purchase through to place of meeting, requesting a certificate properly filled out by the agent at the point where EACH purchase is made.

THIRD.—It is absolutely necessary that a certificate be procured, indicating that full fare of not less than 75 cents has been paid for the going journey. It likewise determines the route via which the ticket for return journey will be sold, and without it no reduction will be made, as the rule of the Committee is that "No refund of fare can be expected because of failure of the parties to obtain certificates."

FOURTH.—Tickets for the return journey will be sold by the ticket agents at the place of meeting at one-third the first-class limited fare, only to those holding standard certificates signed by the ticket agent at point where through ticket to the place of meeting was purchased, counter-signed by the Scrivenator, certifying that not less than one hundred persons holding standard certificates are present, and that the holder has been in attendance upon the convention, and viced by special agent of the railway association requiring the last named supervision.

FIFTH.—Tickets for return journey will be furnished only on certificates procured not more than three days before the meeting assembly, nor later than two days after the first day of the meeting, and will be available for continuous passage only; no stop-over privileges being allowed on tickets sold at less than regular unlimited fares. Certificates will not be honored unless procured within three days after the date of adjournment of the convention. It is understood that Sunday will not be reckoned as one of the three days either before the opening date, or after the closing date of the meeting. No certificate will be honored if issued in connection with children's half fare tickets.

SIXTH.—Ticket agents will be instructed that excursion fares will not be available unless the holders of certificates are properly identified, as above described, by the secretary or clerk, on the certificate, which identification includes the statement that one hundred or more persons, who have purchased full fare tickets of not less than 75 cents each, for the going passage, and hold properly receipted certificates, have been in attendance at the meeting, and by the stamp and signature of special agent of the railway association. A violation of the rules in certifying that the stipulated number was in attendance, when actually a less number of properly receipted standard certificates were presented, will deprive the offending organization from the further courtesies of this Committee.

SEVENTH.—The certificates are not transferable, and the signature affixed at the starting point compared with the signature to the receipt, will enable the ticket agent to detect any attempted transfer. A transfer or misuse of certificates or tickets authorized under this rule will forfeit all privileges granted.

EIGHTH.—A guarantee has been given the Central Passenger Committee, to release at full fare any return tickets procured by persons in attendance at this meeting that may be found to have been transferred, misused or offered for sale.

NINTH.—Please read carefully the above instructions, be particular to have the certificates properly filled and certified by the railroad agent from whom you purchase your going ticket to the place of meeting, as the reduction on return will apply only to the point at which such through ticket was purchased.

EXPLANATIONS.

Paragraph FIRST of the foregoing means that tickets going to Detroit cannot be purchased earlier than MONDAY, SEPTEMBER 6th, nor later than FRIDAY, SEPTEMBER 10th (three days before and two days after the first day of the meeting).

Paragraph FIFTH, after reiterating a part of paragraph First, says, "Certificates will not be honored unless presented within THREE DAYS after the date of the adjournment of the meeting." The business meeting, as a matter of fact, will be closed Saturday evening, September 11th. If the three days were to date from that time the arrangement would not per-

SPECIAL NOTICE.

- (1) If going ticket is purchased more than three days (not counting Sunday) prior to the agreed opening date of the meeting, or three days after (including) opening date; except that, when meetings are held at distant points to which the authorized transit limit for tickets is more than three days, tickets may be sold before the meeting in accordance with the limits shown in regular tariffs;
- (2) If less than 100 persons holding properly executed certificates of standard form, are in attendance;
- (3) If not indorsed at the meeting by the Committee's special agent on the days arranged by the officers of the meeting for his attendance;
- (4) Unless the holder hereof has paid not less than 75 cents as railroad fare for the going journey;
- (5) Unless presented to ticket agent at place of meeting, and return ticket purchased, within three days (not counting Sunday) after agreed date for adjournment of meeting;
- (6) If issued in connection with children's half-rate tickets, or account of clergy, charity, employes, or at less than regularly agreed full first-class fare.

This Certificate is Not Transferable, and will not be honored if presented by any other person than the original purchaser whose signature is written hereon, and the reduced fare ticket secured under it is not transferable.

dozen or so men who were unable to get the reduced rate on return ticket on account of some irregularity in the matter of certificates. We want to obviate the trouble this time. When you go to buy your ticket take these instructions with you to the ticket seller, and see that every condition is complied.

It is only necessary to say in conclusion, that the foregoing rates are open to any ladies a member may want to take along. Every person, man or woman, who attends the Annual is a "delegate," so far as a right to participate in this rate is concerned.

Hand-Book Statistics.

The "Pacific Coast Wood and Iron" has compiled the following interesting statistics from the contents of the 1897 hand-book:

"The book is issued from the Scrivenator's office, and contains 288 pages, printed on thin paper and bound in flexible cover. The contents comprise the following: Supreme Nine; List of Vicegerencies, of which there are 35; House of Ancients, with three members; Chamber of Horrors, consisting of 88 cells; Constitution and By-laws; Alphabetical List of Members, of whom there are 4831; List and Date of Concatenations, of which there have been held 392; List of Deceased Members, numbering 74; the Membership by States and Countries. "An examination of the new book discloses some facts that may be of passing interest at least. For instance, there have been 392 concatenations to receive 4831 members, or a little

mit of the trip to Mackinac, which is the entertainment feature of the meeting. To obviate this a special arrangement has been made whereby the date of adjournment stamped on the certificates will be September 15th. Three days counted from September 15, will make the certificates valid until midnight of Saturday, September 18th.

Paragraph THREE is of the greatest importance. You must not fail to get this certificate—a written receipt will not do. The certificate must be a printed form like that shown on this page.

This is the certificate of the Central Passenger Committee, and is signed by Mr. F. C. Donald, the Commissioner of that organization. The certificates of all the other associations or committees will be of the same general form, though, of course, bearing other signatures.

For fear the ticket agents at some of the smaller places, by some oversight, may not be supplied with these certificates, it is suggested that every man contemplating the trip interview his agent on the subject a sufficient time ahead of the contemplated purchase, to enable him procure the certificates.

REMEMBER, A WRITTEN RECEIPT WILL NOT BE RECOGNIZED.

Paragraph SECOND is also very important. Do not fail to read it carefully.

At every Annual Meeting we have held there have been a

over twelve candidates to the concatenation. This is a larger average than one would naturally suppose. Out of a membership of 4831 there have been 74 deaths, or about 1 1/2 per cent. The membership is divided into fifty different States and countries, which gives an average to each of 96 members.

Regarding the distribution of Hoo-Hoo, the book shows the following relative position of the different divisions in the order of importance: Wisconsin, 685 members; Michigan, 415; Missouri, 352; Illinois, 207; Texas, 254; Ohio, 240; Minnesota, 185; Tennessee, 183; Iowa, 164; Kentucky, 164; Arkansas, 149; Washington, 125; Louisiana, 124; Kansas, 115; Georgia, 113; Mississippi, 107; Pennsylvania, 88; Nebraska, 80; Indiana, 78; California, 77; Alabama, 68; Massachusetts, 66; New York, 61; Colorado, 43; Oregon, 34; Oklahoma, 31; North Dakota, 23; Indian Territory, 16; Florida, 12; West Virginia, 11; New Jersey, 8; Canada, 7; Connecticut, 5; North Carolina, 4; South Dakota, 4; Virginia, 4; Maryland, 3; British Columbia, 2; England, 2; Mexico, 2; Montana, 2; District of Columbia, 1; Idaho, 1; Japan, 1; Maine, 1; New Hampshire, 1; New Zealand, 1; Ontario, 1; Rhode Island, 1; Vermont, 1; Wyoming, 1.

Regarding what might be called 'Hoo-Hoo centers,' or those towns where there are a large number of members, the following is noticed regarding the membership, the cities being listed according to the number of Hoo-Hoo in each: Chicago, 164 members; St. Louis, 162; Minneapolis, 106; Kansas City, 97; Detroit, 86; Memphis, 70; New Orleans, 65; Nashville, 64; Louisville, 58; Cincinnati, 53; San Francisco, 46; Cairo, 44; Seattle, 41; New York City, 38; Atlanta, 36; Boston, 34; Pittsburg, 33.

"So far during the current Hoo-Hoo year there have been held 25 concatenations, at which 500 candidates were admitted."

VERY IMPORTANT.

The following is a list of those who have not yet paid 1897 dues. The Constitution requires that the third notice of dues be sent by registered mail. If your name appears in the list you are asked to kindly remit promptly and save the Order the expense of sending out so many registered notices.

It should be remembered that these members are not delinquent for dues. Every man has till the end of the Hoo-Hoo year in which to pay his dues. This publication is made merely to reduce the number of registered letters to be sent out. Look for your number in the list.
