THE BULLETIN
VOL. XVIII NASHVILLE, TENN., AUGUST, 1912. No. 202

DUES for the Hoo-Hoo year ending September 9, 1913, become payable at midnight, September 9. Notice of these dues will be mailed to reach the members on or before September 9, and should have prompt attention. Notice of dues will of course be for only the year 1913, the amount being \$1.65. However, if you have not a card showing dues paid for 1912, your check should be made for \$3.30, covering the two years.

With notice of dues will be sent Fifth Call for the Hoo-Hoo Death Emergency Fund, but this call will bear date of October 1. The present balance on hand in the Death Fund is deemed amply sufficient to pay all claims up to that time, and the Fifth Call is sent out in advance only that it may go along with the dues notice, thereby effecting a material saving in postage.

The issuance of this call under date of October 1 again causes just six months to elapse between this and the preceding call which went out April 1, still further attesting the accuracy of the estimate made by The Bulletin in the beginning that the death rate among participants would be such as to require the issuance of calls at intervals of six months, or two calls for each year, making the cost of participation \$4.00 per annum for \$250 of indemnity, or at the rate of \$16 per annum per thousand of insurance—and this without age limit or medical examination.

SPECIAL NOTICE—All communications intended to reach the office of the Supreme Scrivenoter after September 9, 1912, must be addressed to W. M. Stephenson, Scrivenoter, 1219 Wright Building, St. Louis, Mo. All checks, money orders or other forms of remittance mailed to reach the Scrivenoter after September 9 must be made payable to Brother Stephenson. Failure to remember this will cause delay and inconvenience.

A MONTHLY JOURNAL DEVOTED TO THE INTERESTS OF HOO-HOO

J. H. BAIRD, Scrivenor, Editor.

Published Monthly by the Concatenated Order of Hoo-Hoo, at Nashville, Tennessee.

Entered at the Postoffice at Nashville, Tennessee, as second class matter.

TERMS TO MEMBERS

One Year.....\$6.00 Single Copies.....4 Cents.

THE BULLETIN is the only official medium of the Concatenated Order of Hoo-Hoo recognized by the Supreme Nine, and all other publications are unauthorized and unauthorized.

NASHVILLE, TENN., AUGUST 1912

With this issue of The Bulletin my official connection with the Concatenated Order of Hoo-Hoo ceases. I want to say to all the members, and especially to my personal friends in the order, that I leave the work with genuine regret, and with undiminished interest in the order and faith in its future growth and usefulness into a greater usefulness than it has ever had before. I do not know, any more than any other member, into what Hoo-Hoo may ultimately develop, but I do know, and I believe this knowledge and feeling is shared by most of the members, that Hoo-Hoo is too good a thing, has lived too long, has built up too many pleasant relations and memories, has had too much unselfish work done in its behalf by men from one side of the country to the other (absolutely without money and without price), and finally that it has cost the individual member too little and is now costing him too little, ever to be permitted to decline.

There is something essentially vital in the fundamental idea upon which Hoo-Hoo was established—"to bring into social and fraternal relations those men engaged in the lumber business." No other organization of whatever sort, was ever formed upon such an idea. The idea lives and is a good one, and the order will live and grow and prosper.

It is with the greatest gratification that I leave the work with a record behind for the past year so satisfactory, and the outlook for the future so bright. The record of concatenations for the past Hoo-Hoo year, despite untoward circumstances that delayed and retarded the efforts of officers and members during several months of last fall, is already nearly equal to that of last year and the year before. Last year exactly the same number of concatenations were held as were held the year before, namely 51. This year, when this is written, 53 concatenations have been held and reported, while a half dozen or more are scheduled to come off between now and September 1. The record is a remarkable one, but the prospect ahead is even more gratifying. The holding of the Annual Meeting in July has resulted in one great good. It has put the new administration in harness with a running start. Instead of having to consume two or three months of the Hoo-Hoo year, as heretofore, in these officers getting acquainted with the situation and appointing the Vice-presidents, most of this work has been already done. More than half the Vice-presidents to be appointed for next Hoo-Hoo year have already been selected and their appointments will go out to reach them September 1. Dozens of them have been already informally

notified, and a goodly number of these have already started work on concatenations to be held in the early fall.

I prophesy that with the new impetus given to Hoo-Hoo there will be not less than 125 concatenations held between September 9 of this year and the convening of the Annual Meeting at St. Louis next year, that a larger number of initiates of a better class will be initiated than for many years, and finally that the Annual Meeting at St. Louis a year hence will be the biggest, the best, and the most enthusiastic any Hoo-Hoo has ever attended.

Every indication points to all these predictions being fulfilled or exceeded. The new Supreme Nine is composed of able men, well chosen to carry forward the splendid efforts of the Nine which has served during the past twelve months. They are men of ability, are wisely selected as to geographical location, and have already started into the year's work with an enthusiasm never before witnessed since I have been Scrivenor.

The choice made of the new Scrivenor is a wise one. Besides being well qualified for the position, his past two years' work as Supreme Representative of the order has given him a knowledge of the existing situation all over the field and a personal acquaintance among the members of the order such as no other man holding official connection with Hoo-Hoo has ever had to start with.

I feel a more than personal interest in seeing the record of next Hoo-Hoo year made the best in the history of the order, and I ask all my personal friends to join with me in the most vigorous assistance each of us can possibly render.

Fraternally yours,

J. H. BAIRD (408).

THE HOO-HOO DEATH EMERGENCY FUND.

The following is statement of the Hoo-Hoo Death Emergency Fund to close of business August 26. It will be seen that deaths have run heavy during both July and August, eleven claims being paid during those months. There will be seen an expense disbursement of \$300. This is pro rata of general expense for postage, stationery and such like, assessed against the Hoo-Hoo Death Emergency Fund incurred during the two years the fund has been in operation. Heretofore the Death Emergency Fund has paid no part of these general expenses, no office rent, no postage or printing, except for the formal calls sent out at the intervals of six months, no clerical work whatever, and no part of the postage on general correspondence. As a matter of fact, during the past two years something like one-fourth of the general correspondence has been in some connection with the Death Emergency Fund. It was deemed that the fund should stand a fair proportion of this expense, and upon figures and estimates being submitted at last Annual Meeting, the Supreme Nine authorized a payment of \$300 from the Death Fund to the Concatenated Order of Hoo-Hoo, the latter having stood absolutely all of these expenses. The apportionment is certainly low enough. No participant in the Death Fund can complain of this expense. It is only \$150 a year for the two years the fund has been in operation. The Supreme Scrivenor is confident that this sum would not cover the postage alone.

With this expenditure the nine death claims paid since report published in July Bulletin, brings our balance down to \$3,164.98. This is ample to run the fund for the remainder of the usual period of six months, and will put the Fifth Call out under date of October 1, just six months from the time the Fourth Call went out, which was April 1. As a matter of fact, however, the Fifth Call will go out September 9, along with first notice of 1913 dues. This is merely to save postage, the two notices being sent in the same envelope. The Fifth Call will bear date of October 1. From now on until October 1 such subscriptions as come in to the Death Fund will be credited in advance on Fifth Call.

Some Expressions from Participants.

The following letter from Brother P. D. Roe needs a little explanation. Every time a Call has come out Brother Roe has cracked down with \$10, without saying a word even in acknowledgment of the cards sent him. The letter below is in response to one written him calling attention to the fact that he is paid far in advance and jocularly suggesting that he may not be fully informed as to what is expected of the participants.

Port Moody, B. C., April 1, 1912.—Enclosed find my check in response to the Fourth Call on Emergency Fund. In reply to yours of the 27th ult. I wish to say that you are wrong in both conclusions. I merely want to get satisfaction in some way for the money I spend, and I don't know anything more satisfying than the feeling that some one's widow or orphans are being benefited. I sincerely hope this call is liberally responded to and that the fund is maintained.

Yours fraternally,  
P. D. ROE, 16951.

Indianapolis, Ind., April 8, 1912.—I am very much pleased to subscribe to this fund, as I regard it as a very small expense for the good it does, and I have no doubt it has in numerous cases supplied emergency funds greatly needed.

Trusting the response will be general from our membership, I am,  
Very truly yours,  
O. D. HASKETT.

Marion, Ill., April 2, 1912.—Enclosed please find my check for \$2.00 in payment for the Fourth Call Death Emergency Fund. I have been very sick, but concluded not to die now and deplete the Death Emergency Fund. With best wishes, I am,  
Yours truly,  
ED VANDEGRIFT, 22689.

North Birmingham, Ala., April 5, 1912.—I am enclosing my check for \$2.00 to cover Fourth Call for Hoo-Hoo Death Emergency Fund. I am a hearty believer in this work, and believe that it is the best step that Hoo-Hoo has ever taken.

Yours respectfully,  
W. THORNTON ESTES.

Bond, Miss., April 6, 1912.—Enclosed find money order for \$2.00 for Fourth Call. I regard this emergency fund as a Godsend to many bereaved widows.

Yours fraternally,  
JOHN W. CONNELL, 5350.

Waco, Texas, April 5, 1912.—Enclosed please find check for \$2.00 to cover Fourth Call Hoo-Hoo Death Emergency Fund. Wish I could write all checks with as much pleasure as this.

With best wishes,  
Yours very truly,  
W. E. DORIS.

Ovalo, Tex., April 3, 1912.—It is my purpose to stand by this feature of our Order. I think it should be maintained.

Fraternally yours,  
J. B. BURKE, 8144.

Pittsburgh, Pa., April 2, 1912.—My check for \$2.00 to apply on the Fourth Call Death Emergency Fund, when it is made. This is a good step in Hoo-Hoo, and I hope to contribute several times more yet.

With best wishes for the Order,  
Respectfully,  
F. F. BULLARD, 16180.

Clay, W. Va., April 3, 1912.—I see by The Bulletin notice of Fourth Call for the Death Emergency Fund. I enclose you check to pay my share, and I feel it is a good investment, and I hope I will live to play the calls as they come.

Wishing you and all Hoo-Hoo long life, etc.  
Fraternally yours,  
JOHN S. SWAN, Jr., 8197.

NOTES & COMMENTS

By the time this issue of The Bulletin reaches its readers the Hoo-Hoo year will have nearly ended and the new year will be close at hand.

One thing in particular that every man can do with but little expenditure of time or energy is to pay his dues promptly.

Another thing which it is hoped the members will bear in mind is that The Bulletin is their paper—it is not the expression of any one person's views or interests.

These are some of the ways in which all members can assist in the progress of the Order.

Office of The Robert Dollar Co., Shanghai, China, June 15, 1912.— I am looking for another big "set-up" here.

These remarks, coming from a level-headed business man (not a politician) who is "on the spot," are of more than ordinary interest.

China originally asked for a loan of \$50,000,000, and offered the usual securities for repayment.

It is excellent," says Shakespeare, "to have a giant's strength; but it is tyrannous to use it like a giant."

It was the fear of foreign aggression that caused the overthrow of the Manchu, and it was in the hope of obtaining protection that the republic was established.

During the time the Olympic games were in progress in Stockholm, Sweden, a complete illustrated newspaper was published in that city in English.

English is the universal language of sport, and not only is the native tongue of the two greatest sporting nations, but is understood and used for intercourse by athletes and athletic officials of other countries.

A little while ago we were hearing a great deal about Esperanto, the hand-made language which was destined to become the world speech—a medium of communication for all nations.

Although in the course of centuries a great number of words derived from Latin ("Mediterranean words" as a certain English writer disdainfully calls them) crept into English, Anglo-Saxon remains the body and framework of our speech.

foreign language well enough to speak it. Yet they are great globe trotters. If a man won't stay at home and won't speak any language but his own, and yet has money to burn, what is the inevitable result?

It will be remembered that Brother James Lightbody, otherwise known as the Hoot Mon, some time ago adopted the pretty custom of sending a spray of heather to the Annual Meeting.

One of the Vicegerents in a Western State, who was recently reappointed to office, writes enthusiastically of prospects for the coming Hoo-Hoo year:

"Crop conditions in this vicinity promise the best yield for the past ten years. With conditions in such shape, think I can round up a class of fifteen or twenty kittens for a concatenation to be held early in December.

Brother Frank W. Trower, of San Francisco, was farther East when at Asheville than he had ever been before in his life.

"I had a peculiar experience at the Shoreham Hotel in Washington when I arrived there the evening of July 21. I had just registered when the clerk picked up a black cat from behind the counter and asked me what I thought of the new menagerie he was acquiring.

Friends of Brother Trower in this part of the country cherish the hope that the black cat at Washington pro- saged not only good luck for the hotel but also another trip east of the Rockies for himself.

In the course of a recent letter written in reply to one from this office, Brother S. G. Dowell, of Douglas, Arizona, gives some general items which, no doubt, will interest the members at large.

Flagstaff is in the northern part of Arizona, while Douglas is in the extreme southern portion, being on the line of Old Mexico.

I became a member of the Emergency Fund on the start, for I am a great believer in that part of Hoo-Hoo and wish it all success.

Office of Midland Route, Chicago, Ill., July 23, 1912.— Dear Brother Baird: Note enclosed clipping from the Record-Herald of yesterday.

age, some people still do not know that a black cat is not a hoodoo, but a lucky sign. A. E. BROWN, No. 7396.

The clipping is as follows:

A black cat, omen of bad luck, led the way yesterday for the first street car that passed through the new North LaSalle street tunnel.

Some laughed at the old superstition; others remembered Edgar Allan Poe's graphic story of the black cat and the skeleton and were silent.

A Clybourn avenue car was being prepared for the first plunge beneath the river when the cat appeared. No one had seen it arrive. No one knew whence it came nor where it belonged.

It perched on a rail, its back in a hump and its tail standing straight in the air, looking into the giant "rat hole." It hesitated only a moment, blinking at the bright arc lights that gleamed in the gloom of the passage like great eyes.

Clinging to the rail the animal disappeared into the mouth of the tunnel and was lost to the view of the crowd. Ten minutes later it emerged on the opposite side, its eyes still wide from their dilation in the darkness of the tube.

For a few minutes it loafed in the sun, then disappeared as mysteriously as it had appeared at the southern entrance.

No accident attended the initial trip of the Clybourn avenue car.

#### FROM THE OTHER SIDE OF THE WORLD.

Office of the Berlin Machine Works, Sydney, Australia.—

P. & O. S. S. "Marmora" en route Perth, West Australia, July 5, 1912.

My Dear Baird: You ask me why I do not write something for publication. I am often tempted to do so, but owing to many other activities I as often put it off.

Travel takes up much of my time, and at the same time I maintain an office in Sydney in touch with which I have to be continually by mail, cable, telegraph and wireless. You folks at home have no idea of the distances out here. For instance I am now taking a hurried run out to Western Australia from Sydney to advise with engineers regarding a saw milling plant. It is merely a hurried run and back again, but in point of time it corresponds exactly to your taking a trip to New Orleans and thence to San Francisco by sea via Panama Canal; or to run over to London and back again.

My territory extends from Singapore in the north to Hobart in the south, and from Perth in the west to Gisborne, New Zealand, in the east. It corresponds to a territory extending from Winnipeg to Venezuela and from San Francisco to London. Much of the traveling is by sea which, to be sure, is most comfortable, but comparatively slow.

Australia is a delightful place to live in. The people are all of British origin, the cities are large and modern and life in many ways easier and saner than in America.

There are a great many Americans out here, some permanently located and some as birds of passage. One meets them everywhere. On the boat this trip there are several, among whom is our Consul General at Large, Mr. Chesire, who is going on to inspect our consulate at Perth. Yesterday we were in port at Adelaide, and as it was the Fourth of July we visited the consulate where our Consular Agent (a British subject, by the way) was giving a delightful reception to all and sundry. It was here that we learned of the nomination of Mr. Wilson as Democratic candidate for the presidency. This was discussed when we came together on board again, and so far as the Americans went, it seemed to be the general opinion that he will be our next President.

As you know, I am Vicegerent of Hoo-Hoo in Australasia. So far it has been simply an ornamental honor. I have felt, however, that the Australasian would take kindly to Hoo-Hoo. It would be necessary to get a trunk from

home and initiate a dozen or so prominent men by administering the oaths and then go after the rest in the good old orthodox way.

Give my best regards to all old friends. Sincerely,  
W. G. BOORMAN (No. 196).

#### In Western Canada.

The following letter is from Brother W. R. Waters, No. 16304, formerly of Kentucky, but now making a hazard of new fortune in British territory. Brother Waters was for a time a member of the Kentucky State Board of Equalization and Assessment. He says, however, that he was born a hayseed, and that, harkening to the call of the wild, he took to the prairie. In his letter, Brother Waters has touched on conditions in western Canada as they appear to him:

Big Stone Gap, Alberta, July 10, 1912.— . . . I have given this country my best thought and study since coming here last August 10th, but I have not attempted to study the government system, etc.

I came here to homestead and pre-empt, brought a nephew along to do the same, and have two young men who came here in 1909 and took up land who wanted me to help them along the road of developing a grain farm, and we are hard at it. The job is no child's play. I would advise any one with that in mind to steer clear of the homestead and pre-emption line. There are many here now hoping to hang on by their eyebrows, prove up, sell out, and get out with a good stake. I simply say they will earn what they get, and perhaps not get it after earning it. Conquering this prairie sod reminds me of "Broncho Busting," you must either "bust it" or it will certainly "bust" you, mentally, physically and financially. There are no golden apples here waiting for the picker. But there is an opportunity here for the farmer with brains, push, energy, experience and capital. While I do not want to discourage anyone from coming here to "sail their prairie schooner" on this seemingly placid lake of prairie sod, I want to state facts as they appear to me.

I believe that all crimes in the category have been committed for the possession of land. Since there is supposedly nothing new under the sun, "history will simply repeat itself" more rapidly as new land becomes scarcer. The man who has never owned a farm is strangely struck when he is told or reads that in a certain location 160 acres of virgin soil is to be had for \$3.00 per acre at 5 per cent interest on long time; he does not see that there is a strong rope tied to this proposition in the way of homestead and requirements, and so he jumps in and has an experience that pen cannot put on paper and do the subject justice. Now, as a matter of fact, the government is not to blame. The cost of looking after this homestead and pre-emption department I presume does not make the government any appreciable net returns on the investment. I take it that the government is as liberal in the matter as it is possible for them to be. The thing that wrecks the homesteader's schooner is the cost of living and the cost of everything he has to do and buy before his land will support itself and him.

Without attempting to go into the causes for it being so I will simply state that in Calgary, a town of 50,000 people, goods cost at wholesale as much as the same goods do at retail in Louisville or Nashville. To this rule there are no exceptions that affect the homesteader, but there may be articles out of the homesteader's class that sell on a parity with like articles in the States. You can buy smokers' matches (safety matches in small boxes) at any cigar store in Louisville at 1 cent per box; in Calgary the same matches cost 5 cents for 2 boxes at a cigar stand. It is safe to say that goods cost at retail here in the towns from 50 to 100 per cent higher at retail than they do in Louisville or Nashville. Now think what these goods cost a homesteader after he hauled an empty wagon 65 to 80 miles to a railroad station to get them and hauled them home. It would help the cause if he had hauled something to market when he went after the goods. Lumber is high, and there is no profit in freighting as above at one cent per lb. The commonest sheeting costs \$19.00 per M. Now add one cent per lb. to freight it to the homestead; so you see the homestead shack may not look as well as a checked

coop, yet it cost something. You can see that one does not have to build a mansion to have the \$200 house required by the government when you prove up your homestead at the end of the third year. The costly part of hauling generally does not last long; fortunately the railroad development generally comes to his relief, but the "early birds" have about lost all their feathers before the railroad comes to their relief. Of course the railroad does not build in until the population is there to buy something for the road to haul in and also something for the road to haul out. Before much can be raised this sod has to be reckoned with at a cost of \$1.00 per acre for the breaking and some \$3.00 or more per acre for preparing and seeding. The first crop, as a rule, does not count for much, but if the seasons are favorable the succeeding crops cost less to put in and the yield is phenomenal to one versed in farming in Kentucky or Tennessee.

My first work here after visiting the land office at Calgary was to buy a self-binder and bring it out here and cut some 50 acres of oats. The land was broken in 1910 and a crop sown on it which failed. It was disked up in 1911 and sown in oats; you can see from photograph enclosed what the standing grain looks like. We stacked the oats, and believe that we harvested at least 4 tons to the acre. We will thresh the oats in the spring and then know what the grain yield will be. I have no fear of the quality. I have never seen better grain. Garden truck flourishes here; I have never seen better in quality, and the quantity is also gratifying. The variety covers a much wider range than one would expect so far north. The altitude is between 2,400 and 2,500 feet. We depend on wells for water which are generally from 60 to 100 feet deep.

The system of farming here will closely follow the Campbell system or dry farming, and where it has been faithfully followed the yield in crops is excellent. We can expect an off year now and then, but the best information is that in the last twenty years the rainfall has been sufficient if properly preserved by preparation of the soil to produce a crop, except in 1910, and then the trouble was largely due to this section having been devastated by a prairie fire in the fall of 1909, literally burned to a crisp.

The cost of tilling the soil by animal power is too slow and expensive, and will not meet the demands of the occasion. Steam power is out, owing to the cost of coal and the quality of that to be had (lignite at a cost of about \$11.00 per ton delivered). The gasoline traction engine seems to have solved the problem. Such an outfit fully equipped will cost \$3,000, or about that figure, depending on size of engine and the completeness of the equipment; will cost \$30.00 per day to run it at planting, and should earn \$60.00 per day plowing prairie sod, doing the work of 28 horses and seven men. In other words, the work can be done for \$3 1-3 less with traction engine than it can be done with horses, and a better quality of work can be done. Preparing and seeding can be done with engine at same cost comparison, and threshing the crop no comparison can be made as the engine work is so far removed from horsepower. Delivering the grain at railroad station will be done in the near future with the engine at a much less cost than by horse power.

A railroad will be a life-saver to this district, and it looks good for two here by midsummer of 1913, one perhaps somewhat sooner. You perhaps understand why brains, push, energy, and capital are put strong in this letter. We here are building for some two years hence, when we hope to come into our own. We are simply going through the diseases of childhood. We may survive them or may not. If not, others will take our places and the repetition of the history of developing a new country will go merrily on.

#### PERSONAL MENTION.

Brother W. R. Anderson (No. 14472) recently took over the entire capital stock of the Packages Publishing Company, of Milwaukee, and is now the whole thing in that concern. The company publishes "Packages," a paper devoted to the wooden package industry and allied industries, and also publishes "Flour and Feed," a journal devoted to horse, mule, cattle and poultry feed manufacturers and wholesale and retail dealers. Both these publications are

leaders in their respective fields. Brother Anderson has been connected with Packages for nearly five years. Prior to that he had a long and valuable newspaper training, having been connected at different times with two leading dailies in Milwaukee and also, some years ago, having been on the staff of a lumber newspaper in the South. Brother Anderson is now Vicegerent for the Southern District of Wisconsin. He has been a Vicegerent for seven consecutive years—in fact, he is what might be termed a veteran in that line. No man has served the Order more faithfully, and members throughout the country will be interested to learn of his expanding enterprises in the field of trade journalism. Brother Anderson was initiated at Vicksburg, Miss., in April, 1907.

Brother E. L. More, of the Horse Shoe Lumber Company, River Falls, Wis., is taking a vacation trip in the form of an extended tour of the West. Brother More will visit for a time at a ranch in Montana.

Various notices in lumber newspapers recently announced the fact that Brother George H. Hodges, of the lumber firm of Hodges Bros., Olathe, Kans., has become Democratic candidate for Governor. The Sunflower State is normally Republican by from 60,000 to 80,000. Two years ago Brother Hodges made the race for Governor against a favored "second-term" and cut down the latter's majority to 16,000. As a member of the State Senate for eight years, Brother Hodges made a fine record. He was the author of a number of important laws now on the statute books of Kansas.

Brother James Hays Quarles, formerly of Collego Station, Texas, is now located at Waco, Texas, where he is managing editor of the Waco Morning News.

#### THEIR GOLDEN WEDDING.

In a letter dated August 7 from Brother N. H. Falk, of Arcata, Cal., this interesting paragraph occurs:

"I have just entered my seventy-seventh year of this life. Saturday, August 10, we will celebrate our golden wedding. Rather a long time to live with one woman!"

## A One Man Affair.

A one man concatenation was held at Nashville on July 20 for the purpose of initiating Brother Joseph S. Wood, connected with the Southern Lumberman. Brother Wood has been an aspirant for membership in Hoo-Hoo for a year or two, but from one cause or another he has been unable to show up at either of the two concatenations held here. He was signed up and paid for at the concatenation which was to have been held here last month, but which has now been postponed for cool weather and the return of several of the Nashville members from vacation trips. In the meantime the health of the wife of Brother Wood required her residence for a time in the West, and being called on to leave Nashville rather suddenly Brother Wood was very anxious to take his degree. He got it. There was not a large crowd present at his initiation, which occurred in the office of the Supreme Scrivenor, but those who were present bear out Vicegerent Ewing in saying that there was probably more doing for the size of the class than ever occurred at any concatenation. The ceremonies extended over more than two hours, and from the noise which drifted out into the corridors of the First National Bank Building and the crowd of attendants which there congregated in some alarm, attest the thoroughness with which the ceremonies were administered. Brother Wood has temporarily taken up his residence in Denver.

## "Golden-Potlatch" Concatenation.

It was a wonderful concatenation held at Seattle, Wash., on July 18 by Vicegerent L. R. Fifer, now elevated to Supreme Custodian on the Supreme Nine. The concatenation came Thursday night in a week given up to celebrating the festival called the "Golden Potlatch." This is a celebration peculiar to Seattle. It never has been and never can be held anywhere else. It is a Seattle institution. Just what it is, which is news to us, is thus explained by Brother Fred H. Gilman, in the American Lumberman in his report of the affair, in which Brother Gilman certainly set nothing of the Hoo-Hoo doings lose in the telling. He says:

The Golden Potlatch is the annual celebration of the greatest event in Seattle's history since the first transcontinental railroad was built—the arrival of the first golden-laden ship from Alaska in the first days of the Klondike strike. Potlatch is an Indian word meaning feast or celebration and the giving of gifts. The celebration Wednesday was handed entirely by the Tillikums of Ellates (Friends of Seattle). The golden-laden ship Portland, with its little band of roughly dressed northerners, with their pokes of gold dust, their malamutes, sleds and furs, was met at the dock by the Tillikums all dressed in white suits and the Hyas Tyeec (Great Chief) conducted the party through the streets to the big tepee.

The concatenation was preceded by a street parade of Hoo-Hoo in regulation robes, making part of the general Potlatch parade. It was a magnificent showing. The robed members of Hoo-Hoo were led by a band from Centralia, Wash., consisting of twenty pieces. Vicegerent Fifer rode

in a carriage at the head of the line, looking altogether as radiant as any Gaekwar of Baroda at a Queen's Durbar. The marching Hoo-Hoo carried with them a caged black cat, and on their float was another huge wooden cage, filled with the candidates for initiation.

Forty men were initiated. Vicegerent Fifer called to the Snark's station the following distinguished members of the order present at the meeting: Supreme Jabberwock, J. M. Leiter, of Portland, Ore.; Past ex-Snark of the Universe, H. J. Miller, of Index, Wash.; P. W. Fau-Vel, Vicegerent, of British Columbia; David Davis, Vicegerent, of Northern District of Oregon; J. H. Ehrmanntraut, Vicegerent for Eastern District of Washington; and ex-Vicegerents T. H. Claffey, W. C. Miles and W. P. Lockwood, all of the Western District of Washington.

The initiatory ceremonies began about 4:30 p. m., with more than 150 members of the order present. The initiation was concluded about 7 o'clock when the whole crowd, now numbering over 200, sat down to the session-on-the-roof. Snark Fifer presided as toastmaster and invited the distinguished members named in the foregoing to the head of the table.

After the first few courses of the dinner had been served the Snark announced that there would be a few short talks by prominent Hoo-Hoo, and one or two matters of business to be brought before the gathering, and in order to expedite matters so that all could get away in time to see the illuminated Potlatch parade, without more ado he introduced E. C. Hole, of the American Lumberman, as the first speaker.

Mr. Hole thanked Mr. Fifer for this complimentary introduction, and said in part:

I am anxious that Hoo-Hoo shall profit and continue to become bigger and better here in the West where the trees are big and the ideas are big. Great Hoo-Hoo has a mission to perform in cementing the friendships of the men in this great industry, and I hope you of the West who are enthusiastic and courageous will make the East and the South see how important the order is. Hoo-Hoo will never be bigger than the men who compose its membership. You men of the West, and particularly the young men, have a great duty to perform to rebuild and uphold the order and make Hoo-Hoo the greatest order in the land.

Mr. Hole closed by reciting the following verses from the pen of Brother Douglass Malloch, the "Lumberman Poet":

## THE WEST.

Men look to the East for the dawning things, for the light of a rising sun,  
But they look to the West, to the crimson West, for the things that are done, are done!  
The eastward sun is a newmade hope from the dark of the night distilled;  
But the westward sun is a sunset sun, is the sun of a hope fulfilled!

So out of the East they have always come, the cradle that saw the birth  
Of all the heart-warm hopes of man and all of the hopes of earth—  
For out of the East arose a Christ and out of the East has gleamed  
The dearest dream and the clearest dream that ever a prophet dreamed.

And in to the waiting West they go with the dream-child of the East,  
And find the hopes that they hoped of old are a hundred-fold increased.  
For here in the East we dream our dreams of the things we hope to do,  
And here in the West, the crimson West, the dreams of the East come true!

Mr. Leiter, Supreme Jabberwock, being introduced, briefly but eloquently expressed his pleasure at being able to be present, at the big turnout and the interest displayed. Mr. Leiter, who is from Portland, said that anybody that knows anything about Washington knows it has men that are doing things. He closed by wishing all health, happiness and long life and with them prosperity.

David Davis, Vicegerent for Oregon, told of the good work being done in Oregon, the number of concatenations,

and said that Hoo-Hoo was getting stronger all the time, and was going to keep up the good work in Oregon as well as Washington.

Harry J. Miller, ex-Snark of the Universe, recited a poem of his own composition entitled "A Baseball Game in Heaven." A concatenation in Washington would never be a success without an original poem from Harry, the "Poet Laureate of Hoo-Hoo." Others that made short talks or told stories were "Tom" Claffey, "Tom" Shields, Cal Welton.

Following the speech making a short business session was held, at which Brother Alexander Page, No. 5891, was selected as the new Vicegerent to succeed Brother Fifer. Mr. Page voiced his pleasure at receiving this honor at the hands of his friends and promised to do everything in his power to build up the order, saying that if he could do as well as Brother Fifer and have as loyal support from the members, he would be satisfied on the record made. Another feature of business was the adoption of resolutions to be wired the Annual Meeting in session at Ashoville, N. C., endorsing the candidacy of W. M. Stephenson as Supreme Scrivenor. The business session closed with the awarding of two prizes to the members who had rendered most effective service in arranging for the concatenation. The first prize, a handsome diamond scarf pin, went to Brother E. L. Fairbanks, and the second, a pearl scarf pin, went to Virgil Baker. Much credit for the success of the concatenation and the enjoyableness of the evening was due also to the efforts of Brother E. F. Heisser, who had charge of arrangements and who labored untiringly throughout the week for the success of the concatenation. His work was warmly commended.

Brother Fred Gilman concludes a two-page report to his paper with the words, "Another great concatenation has gone down in the history of western Washington, credited to Seattle, and to Vicegerent Fifer."

## Twenty at DeRidder.

The concatenation which has been several times announced in The Bulletin to occur at Merryville, La., did not occur there at all, but at the last moment was adjourned over at DeRidder, La. It was held on August 3, Supreme Senior Hoo-Hoo J. F. Judd going down to preside as Snark. Twenty men were initiated, being a first-rate class of husky lumbermen, and but for the uncertainty and uneasiness created by the labor conditions prevailing in that territory, a class of at least forty would have been initiated. Not very full particulars of the session-on-the-roof are furnished, but Vicegerent Wood writes that the initiation was preceded by a small street parade, which was enjoyed by the candidates and the people of DeRidder. Senior Hoo-Hoo Judd writes that with the class of twenty stalwart lumbermen to initiate, the old members present had their hands full in handling them, and that the night of the concatenation was almost unbearably hot, which detracted somewhat both from the attendance and the enjoyableness of the meeting. This is the second concatenation to be held in Southern Louisiana, and will be followed by quite a series of other meetings during the early fall.

#### Delayed in Reporting.

Due to illness of Vicegerent H. H. Coombs, the splendid concatenation held at Albany, Ga., on June 19 was not reported in time for July Bulletin. It is a little late now to go into details of a news nature, but the concatenation deserves all that might be said about it as a successful and enjoyable one. Eleven men were initiated in the presence of some forty or fifty members of the order, in the list of which appears the name of many of the old-time prominent Hoo-Hoo of South Georgia. At the session on the roof, which was a most delightful one, Vicegerent Coombs presided as toastmaster, and set the speech-making going with a few bright and timely observations. The principal talk of the evening was made by Mr. S. K. Cowan, of

#### No. 2 For Brother Monson.

Vicegerent W. P. Monson, of Utah, held his second concatenation of the Hoo-Hoo year at Ogden on July 26, and it proved a most delightful and enjoyable affair despite some disappointment in the number of initiates. Bad weather, bad train service and illness of two or three of the prospective initiates all conspired to cut down the class, but the attendance of members was gratifying, seeing that no large membership exists at Ogden. Between twenty and thirty members of the order were present, several coming up from Salt Lake City, where Hoo-Hoo has always had an active and enthusiastic membership. Brother Monson's splendid concatenation earlier in the year will be recalled. He writes that this last meeting, though initiating a small class, was none the less enjoyable. Brother Monson has made an excellent record as Vicegerent during the year, and has been asked by the new administration to accept reappointment.

Snark, W. P. Monson; Senior Hoo-Hoo, H. W. Gwilliam; Junior Hoo-Hoo, A. W. Echart; Bojum, J. G. Cook; Scrivener, R. H. Felt; Jabberwock, R. W. Frank; Custocatlun, Dale L. Smith; Arcanoper, J. H. Baker; Gurdon, Jas. Goudie.

#### Good Meeting at Marlinton.

While full formal report has not yet been received of the concatenation held at Marlinton by Vicegerent A. D. Williams, on August 14, enough advice has been received to show that the meeting was a pronounced success, probably one of the best held in West Virginia for a long time. A high-class bunch of initiates, numbering eleven and consisting for the most part of prominent lumbermen of the region was initiated. Immediately after the concatenation Brother Williams was called away by the serious illness

of Mrs. Williams, at whose bedside he still is when this is written. Vicegerent Williams has been at work on the concatenation for several weeks, holding a little informal dinner party at the Marlinton on July 4, which was preparatory for this concatenation.

Snark, A. D. Williams; Senior Hoo-Hoo, Hubert Echols; Junior Hoo-Hoo, Alf A. Rudy; Bojum, Geo. C. Craig; Scrivener, J. M. Paris; Jabberwock, M. W. Nester; Custocatlun, F. H. Whaley; Arcanoper, E. M. Bonner; Gurdon, E. B. Smith.

#### Andrew H. Billmeyer (No. 25037).

Brother Andrew H. Billmeyer died August 15 at his home in Cumberland, Md. Brother Billmeyer had been ill for a long while, having fallen a victim to Bright's disease, but at times he was able to be about and had attended the concatenation held at Cumberland, April 12, last.

Brother Billmeyer was born in Montour County, Pa., near the city of Danville, March 9, 1856. For a number of years previous to his death Brother Billmeyer had been very prominent in the lumber business in Maryland and in West Virginia, and he was also well known throughout the east. At the time of his death Brother Billmeyer was President of the Billmeyer Lumber Company, of Cumberland. He was initiated into Hoo-Hoo December 9, 1910, and was a subscriber to the Death Emergency Fund.

#### Jesse James Benjamin McCullar (No. 14606).

Brother McCullar died at Denton, Texas August 12. He had just returned from a trip to Oklahoma in search of health, and had been at home but a few hours when the end came. Brother McCullar was born at Eldorado, Ark., August 6, 1856. He was initiated into Hoo-Hoo in April 1905. Brother McCullar had responded to one call of the Death Emergency Fund (Third Call sent out last October), but like too many of our other members he had failed to keep up his payments and, therefore, was not in line to have his death claim paid.

#### Alexander Benjamin Lukens (No. 11533).

Brother A. B. Lukens died suddenly on the Norfolk Southern train just after leaving Norfolk for his home at Moyock, N. C., July 10. He had rushed to catch the train and it is believed that his death was caused by heart failure due to over exertion.

Brother Lukens was born in Pickaway County, Ohio in 1862. He removed to North Carolina in 1903 and was an active member of the Carolina Land & Lumber Company and of the Provident Land Company, being treasurer and vice-president, respectively, of the two companies named. He was also president of the Drainage Board of Moyock. He was a prominent Mason and a very progressive and able man. He became a Hoo-Hoo at Norfolk in 1908.

#### John Lancaster Hammer (No. 8216).

Brother John Lancaster Hammer died at Eureka, California August 4. Very few particulars of this death have been received.

Brother Hammer was born at Lancaster, N. Y., September 29, 1849. He became a Hoo-Hoo at Tacoma, Wash., in April 1901. He was a subscriber to the Death Emergency Fund.

#### Charles Augustus Brown (No. 3807).

Brother Chas. A. Brown died at Milwaukee, Wis., August 26. Brother Brown was born at Norwich, N. Y., March 12, 1850. He was initiated into Hoo-Hoo at Milwaukee in 1896. Brother Brown was a subscriber to the Death Emergency Fund. No particulars of this death have been received at this office beyond the mere mention of the fact of death.

#### Samuel Thomas Swinford (No. 542).

Brother Samuel T. Swinford died at Houston, Texas August 4. Brother Swinford was head of S. T. Swinford & Co., lumber dealers, secretary of the Lumbermen's Association of Texas; president of the Houston Real Estate Exchange; vice-president of the Houston School Board, and one of the foremost citizens of Texas. His death was due to a prolonged general decline of health, brought on by an attack of pneumonia. Brother Swinford was born at Pleasant Hill, Mo., December 11, 1851. In 1878 he went to Texas and for a time engaged in teaching school, in which he attained marked success.

He organized the present school system of Orange. Later on Brother Swinford engaged in the lumber business in Orange, Texas, but afterwards removed to Houston, where he had lived for years. He is survived by a widow and four sons, Jerome, Samuel T. Jr., Harry and Eborle.

Brother Swinford had been a member of Hoo-Hoo for many years, having been initiated at Houston, Texas, in 1893, the second year after the order was organized. He was a subscriber to the Death Emergency Fund.

#### AN UNKNOWN QUANTITY.

It is impossible to get the best of some people. They haven't any.

Embedded in the heart of a plank of wood taken from a railway station platform at Oakley, Fifeshire (says the London Standard), there has been found a sword measuring over two feet long. The plank had been in use for at least fifteen years.

Many a man keeps his head above water by not letting the grass grow under his feet.

Without funnels, coal, firemen, and smoke, the fore-runner of the new steamship has arrived. The Danish East Asiatic Company has made a practical test with a new boat of 10,000 tons displacement. The ship is an oil-burner, and is, in fact, an immense motor-boat driven by engines somewhat similar to those in use upon motor-cars. The engine-room has the advantage of plenty of light, no oppressive heat, and but little noise. Its oil tanks, at the keel, carry sufficient fuel for a cruise around the world.

#### The Value of Travel.

Travel is a great educator, including in its curriculum the knowledge that a dining car is no place to look for bargains.—Atchison Globe.

Two in Western Canada.

Just as The Bulletin is sent to press comes announcement from Brother E. D. Tennant, of Winnipeg, of a concatenation to be held September 4 or 5 at Calgary, Alberta, by Vicegerent E. R. Birnie. Brother Tennant, who it will be recalled, was made Junlor Hoo-Hoo at last Annual Meeting, advises that everything is well in hand for the meeting and that a fairly large class will be initiated.

In the same letter Brother Tennant advises of a concatenation which was to have been held, and no doubt was held, at Winnipeg on August 24. At this meeting, Brother Tennant wrote, no very large class was expected, but that the meeting was intended to get the members together preparatory to a vigorous campaign to be instituted this fall. Brother Tennant promised at the Annual Meeting that there would be such activities throughout his part of Canada this next Hoo-Hoo year as has not been witnessed there in several years.

At Evansville, Ind., On September 9.

Vicegerent Carroll L. Beck in cooperation with the Lumbermen's Club of Evansville, will hold a concatenation at that place on the evening of September 9. Brother Beck is promising all who attend, "a feast of fun." The concatenation is to be held during the short boat trip on the Ohio River, the boat leaving Evansville at 6 o'clock in the evening, chartered and provisioned with all the necessaries. The boat is scheduled to return to Evansville by 11 o'clock, giving four or five hours of what Brother Beck promises will be unalloyed pleasure. The concatenation follows an exhibition of the great Ringling Brothers' celebrated, consolidated railroad circus, at which Brother Beck is confident that his affair will be the real show for the lumbermen.

Another At Toledo, Ohio.

Vicegerent Frank Spangler will hold his second concatenation at Toledo on the evening of September 9, closing out his first term as Vicegerent. He says the success of this second concatenation is assured. As far back as the first of August he had six men already lined up and wanting to be initiated, thus evidencing the good effect of the concatenation he held last January.

No. 2 at Norfolk.

Vicegerent W. J. Woodward, of Norfolk, has fourteen candidates lined up for a concatenation to be held early in September. The exact date has not yet been fixed, as effort is being made to have it come just before or just after concatenation number two to be held at Baltimore by Vicegerent S. Robb Eccles. Vicegerent Woodward and Vicegerent Eccles are working together on this little series of two meetings, and both are being actively assisted by Snark Boggess. Those who recall the splendid concatenation at Norfolk held May 28 will not doubt the success of this second meeting, and an even larger class is assured than that initiated at the first meeting, a fine revival of interest having been accomplished throughout the Norfolk district.

Watsonville, Cal., October 5.

Just as The Bulletin is about to go to press the following letter announcing concatenation to occur at Watsonville, Cal., is received from Brother Trower:

San Francisco, Cal., August 22, 1912.—If it is not too late please insert in the August Bulletin notice of a concatenation to be held at Watsonville, Cal., at 5 o'clock p.m. Saturday, October 5. This meeting is being arranged in connection with a meeting of the Central Coast Counties Lumbermen's Association. Brothers F. H. Wheelan and W. H. Dillon, respectively president and secretary of the association, are working up the details of this concatenation with me.

We have never held a meeting in this section and we ought to have a fairly good sized class. Watsonville is the center of the great apple section of this state. Brother J. D. Rickard, of Watsonville, is looking out for local arrangements. The "On the Roof Session" will be combined with the association banquet about 7:30 p.m., being held probably in the Appleton Hotel, a fine new structure. I will have more details of this meeting for the September Bulletin.

Yours fraternally,  
F. W. TROWER.

OUR VICEGERENTS.

Steve J. Rathbun, Hoo-Hoo No. 16313, Vicegerent at Battle Creek, Mich., where he held a good concatenation on March 21, was born at Battle Creek, 1876. He got his education in the high schools and other schools at Battle Creek and started out in life by enlisting as a private in the Spanish-American war. This was in 1898. Brother Rathbun shows a Thirty-second Michigan Volunteer Regiment of infantry with which to fight, bleed and die, but got a chance to do no very great amount of any of these things.

When the cruel war was over he returned to Battle Creek and bought out the lumber business of Mason, Rathbun & Co., along with Mr. A. J. Kraft, with whom he organized the Rathbun & Kraft Lumber & Coal Company. This was in 1899. Brother Rathbun's next important step was to get married. This occurred on September 12 of

STEVE J. RATHBUN.

the same year he started in business, his bride being Miss Julia Henning Frazier. Two children have blessed this happy home, David Henning, now eleven years old, and Mary Louise, two years younger.

Everybody who went along on the boat cruise last September will remember as long as they live two men for the successful efforts put forth at entertaining the crowd—"Steve" Rathbun and "Jeff" Webb.

Frank Spangler (No. 3677).

Descended from those sturdy German pioneers sometimes called Pennsylvania Dutch, than whom no better people ever landed in America, Brother Frank Spangler was born on a farm near Freeburg, Snyder County, Pennsylvania, November 7, 1867. His father was a saw mill man, a member of the firm of Kalbach & Spangler; and probably a taste for sawdust was inherited by the son. After completing his education at the public schools, topped off with five terms at the Freeburg Academy and one year in a business college in Newark, N. J., Brother Spangler started his business career by making a long jump westward. His first employment was in the capacity of bookkeeper with W. R. Wilson & Co. (now the Nye-Schneider-Fowler Company), of Fremont, Nebraska. In the course of six months he was placed in charge of a branch yard, and four years later, having in the meantime risen to the position of traveling auditor, he accepted a position, with another firm at higher salary. He became city salesman for the Chicago Lumber Company at Omaha, later going on the road as salesman for C. T. Nelson & Co., of Columbus, Ohio. With this concern he remained until its failure in 1896, when, in the midst of a financial panic and a political campaign, the young man found himself out of a position—a blessing in disguise as subsequent events proved.

Deciding that he had worked for others long enough, Brother Spangler resolved to go into business for himself.

Equipped with a strong determination to succeed, a stock of good habits and an inherited tendency toward thrift and industry, he started in a small way, which speedily grew larger. The Frank Spangler Company, Toledo, Ohio, manufacturers of and wholesale dealers in colonial porch columns, composition capitals and southern hardwoods, prospered from the start. The business was incorporated in July, 1904. The company gives special attention to large colonial columns, generally made to architects' details. Columns of this character are shipped to every state east of the Rocky Mountains, and recent shipments were made

FRANK SPANGLER.

to Oregon, Utah and Prescott, Arizona. The main offices of the company are located in the Smith & Baker Building, corner Superior and Adams Streets.

Twelve years ago Brother Spangler began to introduce cypress in the market as a substitute for white pine in the northern territory, which has been a success. Large quantities of cypress are now handled.

Although a very busy man, Brother Spangler finds time to engage in many enterprises of benevolence and charity. He is a member of the Unitarian Church and is an earnest church worker. He is a thirty-second degree Mason, and also is a prominent member of the Toledo Commerce Club and interested in everything that pertains to the progress of the city. Brother Spangler is married, and the family home is located on a twenty-acre farm up the river, recently purchased for a permanent home.

Brother Spangler has been a Hoo-Hoo since 1895. Needless to say he is an enthusiastic member and a faithful worker. He is doing a great deal to uphold and forward the Order's interests in the Northwestern District of Ohio. He held a concatenation in Toledo, January 6, and although there was one uninvited and unwelcome visitor in the city at the time (the blizzard) the meeting was a very pleasant and successful affair. The full report of this concatenation appeared in the January issue of The Bulletin.

A burglar broke into a Euclid Avenue mansion early the other morning and found himself after wandering about the place in the music-room. Hearing footsteps approaching, he took refuge behind a screen. From 8 to 9 the eldest daughter had a singing lesson, from 9 to 10 the second daughter took a piano lesson. From 10 to 11 the eldest son got his instruction on the violin. From 11 to 12 the younger boy got a lesson on the flute and piccolo. Then, at 12:15, the family got together and practiced chamber music on all their instruments. They were fixing up for a concert. At 12:45 the porch-climber staggered from behind the screen. "For heaven's sake, send for the police!" he shrieked. "Torture me no longer!" and in the evening papers there was the headline: "Nervy Children Capture Desperate Burglar."

WHITE HOUSE IRISH TREES.

An Irish paper prints the interesting report that on the White House grounds in Washington several Irish trees have recently been planted, coming from the estate of the Knight of Kerry on the Island of Valencha. They are the gift to Mrs. Taft of Cincinnati by friends who have been visiting in Ireland, and they are cuttings from three of the largest and oldest flowering trees in the world. One is from the fuchsia tree, long past a century old and two and a half feet round; another is from an oleander which two hundred years ago was transplanted from an island in the Ionian Sea, and the third is from an acacia tree, which towers over oak and sycamores, and is a mass of pink feathery blossoms in July. All the cuttings have been rooted, and it is believed that they will thrive in the soil of the White House grounds, where trees are especially cared for.

Know Yourself.

There is something that a man can do thoroughly well. It should be the first business of his life to find out what that something is. One man may have a talent for mathematics, another for mechanic arts, a third for commercial pursuits. But if all were to insist upon keeping books there would be no books to keep.

Genius is often judgment. The enthusiastic brother who dreamed that he saw the letters G. P. C. written upon the sky believed that it was a divine call to him to "go preach Christ." But, after his dreary sermons had driven away the congregation he concluded that the letters meant "Go plant corn."—Los Angeles Times.

THE OFFICIAL HOO-HOO PENNANT.  
Price 99 Cents.

## THE HOO-HOO JEWELRY

### THE HOO-HOO GRIP TAG.

This, also is guaranteed to bring good luck to any traveling man and to keep him from journeying on the downhill road towards failure or disaster. It will be soon that lost grips with this tag on them will probably be sent in to me. In every such case the greatest secrecy will be maintained as to the contents. If your bag contains only a collar button and your other pair of socks, nothing will be said to humiliate you. Price 99 cents, and cheap at the money.

### THE LADIES' PIN.

I have yet to see a lady, old or young, who did not want one of these pins the minute she saw it. To have these pins in the hands of pretty women—and a good Hoo-Hoo knows no other sort—is the best possible advertisement for the Order. Every Hoo-Hoo ought to buy one of these pins, have his number engraved on it, and give it to some good woman. Price \$1.00 by registered mail—\$1.50 flat, if taken f. o. b., Nashville. Loosen up, boys, and give the women a chance.

### THE HOO-HOO WATCH CHARM.

The new design being alike on both sides. It will never hang "wrong side out." The edges are smooth, which is also a great advantage. We once had a most beautiful design, to which we thought there could be no possible objection. It had, however, some sharp points, and numerous kicks began to reach us from married brothers who said the charm "scratched the baby's legs all up." This watch charm is perfectly harmless, as well as very beautiful, besides being appropriately suggestive of Egypt, the birthplace of Hoo-Hoo.

PRICE \$1.50 PREPAID.

That part of the design which looks like the top of a gate or door represents the "Propylon." The Propylon was the great gateway erected in front of the temple of Osiris. It was massive in proportion and rich in sculptural design and inscriptions. In shape it was like the pylons of the temple, from which it took its name. It served as a kind of introduction to the temple, and beyond it was sacred ground. From beneath its portal, on account of its position, the temple in all its glory was seen. Leading from it was the sacred way, bordered on each side by the recumbent sphinx. Once a year, when the earth in its circuit around the sun had reached a certain point in the ecliptic, the rays of the rising sun, cutting across the desert, shone through the great Propylon down the avenue of sphinx into and down through the temple until it lighted up the place of the Most Holy and glittered on the gilded horns of the sacred bull—and the Egyptian new year had begun. The rest of the design is made up of a continuous border of the lotus, symbolical of the resurrection—the lotus sleeps and awakens. The Egyptians believed that their spirits would return to earth after a lengthy sojourn elsewhere and that they would inhabit their old bodies—hence mummies. (You don't have to remember all this, if you buy the charm, but ought to.)

Now, then, none of this Hoo-Hoo jewelry will be sold to other than members in good standing, and only for cash. There is a profit in it to the manufacturer, but none to Hoo-Hoo. It is handed for the accommodation of our members and the good of the Order. None of it will be sold without the buyer's number. Address all orders to J. H. BAIRD, Scrivenoter, Nashville, Tenn.

### THE SOUVENIR SPOON.

The cut gives but a faint idea of its beauty and artistic elegance in addition to bearing the Hoo-Hoo emblem, it is adorned with nine cat-tails, such as grow in the marshes in the South, enameled in the natural color of brown with green leaves. The workmanship is of the highest quality. It is no cheap affair, but is hand-painted, and hand-enameled. This spoon itself is sterling gilt, which means that it is sterling silver, plated with gold. To all intents and purposes it is a gold spoon. The price is about right, I think, considering what you get.

### THE HOO-HOO BROOCHES.

In addition to being artistic and beautiful, these are all "lucky" pins, and I guarantee them to bring success to the purchaser and make his wish come true, provided he wishes for the right thing, and is willing to work.

The simple "bar" brooch is recommended as a present to a practical-minded girl. It carries with it a suggestion of solid worth and is calculated to impress her with the idea that you are about as good a chance, all things considered, as she will be likely to get. The WISHBONE design was made with a view to marrying-off the confirmed bachelors of Hoo-Hoo. THE HORSESHOE PIN is the luckiest of all. It will be observed that this horseshoe is not the old-fashioned kind, such as a common "ping" would wear, but is the up-to-date shoe worn by a running horse. It is, therefore, symbolic of the speed realization of the purchaser's brightest dreams. THE CRESCENT PIN is intended for presentation to a romantic maiden, and may be accompanied by a speech about the moon—"the inconstant moon that monthly changes in its circled orb"—and entreaty that her love be not likewise variable. THE CLOVER-LEAF PIN is for widowers with children, who are trying to marry young girls. It is absolutely irresistible—"a thing of beauty and a joy forever." The clover-leaf has a border of Roman gold, with the center enameled in the natural sward green. Any one of these pins would make an appropriate present from a man to his wife. The horseshoe pin might prove effective as a present to one's mother-in-law, as it would carry with it a delicate hint to "walk away."

### The Fattest Are the Truest.

Oh, how true it is that nobody loves a fat man! When fat comes up on the front porch, love jumps out the third-story window. A fat man's heart is supposed to lie so far inland that the softer emotions cannot reach it at all. Yet the fattest are the truest, if you did but know it, and also they are the tenderest; and a man with a double chin rarely leads a double life. For one thing, it requires too much moving 'round.—Irvin S. Cobb, in Saturday Evening Post.

### THE PRACTICAL SIDE.

The men whose Hoo-Hoo names appear in the notices below are out of work and want employment. This is intended as a permanent department of The Bulletin, through which to make these facts known. It is, or should be, read by several thousand business men who employ labor in many varied forms, and it can be made of great value in giving practical application to Hoo-Hoo's central theme of helping one another. It is hoped the department will receive very careful attention each issue.

Some of our members advertising in The Bulletin fail to advise me when they have secured positions, so an old ad keeps running for months and months. To avoid this I have adopted the plan of running the ads as long as three months and then if I have heard nothing from the advertiser I will cut his ad out. If at the end of the three months he still wishes me to continue it, he must advise me.
