EDITORIAL

Hi from the International Office!

I want to start off by thanking Sacramento 109 for the great hospitality at the Convention. I really enjoyed it, especially being my first ever to attend.

There were so many great things in Sacramento, from the view the hotel had to the food provided by Club 109. But most of all, I met some of the best people! Beth always told me you'll never understand the love people have for the Organization until you go to Convention and see the Hoo-Hoo spirit all around. That rings true!

I look forward to Cowichan Valley in 2023!

View from my room on the Sacramento River.

From The Snark Desk

Greetings one and all. I am so glad and excited that we are finally able to meet in person again. The last couple years have been a trying time for one and all. I have still so enjoyed this year as Snark. Although we were unable to meet in person at the convention last year and my pinning was done virtually, it has still been a memorable year.

I started my term and travels at the Forest Festival in Gurdon, Arkansas. Board members attending were myself, Steve Allison 98064, Chairman of the Board, and Kalene Hooks 101910, Executive Secretary. This is a rewarding experience, because you get to visit the Home of Hoo-Hoo, tour the museum and meet all the local people of Gurdon. I want to encourage you to attend a Forest Festival in Gurdon at least one time, which takes place the last weekend of October. It is always so refreshing to see so many people that are grateful to Hoo-Hoo and its members. The Snark Tour Begins! Steve Allison 98064 and I drove from Atlanta in December to make the East Coast Tour of Clubs, which include: Harry L. Folsom Club #13, Detroit Club #28, Twin Cities Club #12 and Sioux Valley Club #118. We drove from Atlanta to Boston for the Harry L. Folsom Club #13 meeting. This event was well attended and it was so great to see so many people I hadn't seen in years and not miss a beat in enjoying fellowship together. From Boston we traveled to Detroit by way of Canada and Niagara Falls. What a beautiful area to visit! We arrived in Detroit and attended the Detroit Club #28 traditional

Christmas luncheon. Once again, great hospitality. This was a sold out event, and we had the greatest auctioneer in Hoo-Hoo, Jack Miller 95025, Rameses 105, in attendance. The auction was the highlight of the event, and raised over \$2,000 to support local charities! Great job Rameses 105! We were met with snow as we were leaving Detroit for Minneapolis. Not a big deal to most, but for two southern boys snow is exciting. We made an overnight stop in Madison Wisconsin. When we woke up, there was 8 inches of snow on the ground. We were glad to finally make it to Minneapolis in one piece. One of the highlights of this trip was visiting Siwek Lumber and to see Dave Siwek and his family. Siwek Lumber is a family owned and operated business that brings that personal touch to your lumber buying experience. So different from the big boxes that surround Atlanta. Great reminder that America is still at work! We attended the Twin Cities Club #12

REDWOOD DOUGLAS-FIR PRESERVATIVE TREATED

From The Snark Desk

Sioux Valley Club #118.

I had never been in South Dakota and I expected cold and snow, but the weather was warm and great. The Board meeting was held at an area restaurant and these members are such a great bunch of guys. The Club is struggling and my hope is they will continue to meet and grow. The next morning we drove to Steve's mom's house in Kansas City. She graciously shared her home, and gave me the grand tour of the area the next morning. I grabbed a flight back to Atlanta for some much needed rest after visiting 15 states by car with Steve Allison 98064.

My next trip was to Vancouver BC, Canada to visit the Vancouver Club #34. Vancouver is a very beautiful city with gracious people. The Vancouver Club #34 had their industry night and a huge turn out and, as always, it was great to see everyone. The next morning I was put on a seaplane to Vancouver Island. This was a once in a lifetime experience for me-exciting and nice.

I was greeted at the docks by Jim Spiers 97670, Rameses 100, and his lovely wife, Judy. We had lunch at a pub, toured the town a bit, and caught up on what had been going on in our lives over the last couple years. I met with Paul Beltgens 90980, First Vice President, who gave me a tour of his company and a little bit of lumber island history. We then went to a forest museum, and were treated to them actually placing a huge log onto the back of a logging train by crane, which was displayed out by the road. This took amazing skill and hard work by his employees. The Beltgens' graciously put me up at their home. Talk about a Majestic view of God's county. Wow! Unfortunately due to Anna having Covid, I was only able to visit from a distance. The next morning Paul dropped me off at the golf course for a Cowichan Valley Club #229 golf tournament. After about an hour or so sitting out back by the pro shop enjoying the beautiful view, I received a phone call asking, "Where are you Snark? I told him I was at the golf club waiting for somebody to show up. Apparently I was dropped off at the wrong golf course lol.

Luckily Rocky and Jan Bradford 99092, Supreme 9 Jurisdiction 5, were available and came and picked me up and gave me a small tour of the island. I say small because I did not realize how huge that island was. It is absolutely beautiful.

We had lunch with a couple members of the Cowichan Club #229 and meeting them was and being able to just catch up a bit was great. The next morning I was taken to a small airport and I departed for Seattle, Washington to catch my plane back to Atlanta.

My next trip was to California for the famous Trifecta, the West Coast Tour. This was my first time to attend. I flew into Reno to meet up with Gary Gamble 79682, Rameses 95, and Steve Allison 98064, my traveling Chairman. I was graciously hosted by Gary and his lovely wife Jean. Once again, my God what a view. From there we drove to California through the scenic mountains. We attended the Sacramento Club #109 meeting. I can't say this enough. Great meeting, great people, great conversation and a great time! We left late that night to drive to Eureka California and arrived around midnight-very tired lol. This little town is very beautiful and scenic. The next day we went to Eureka, California for the famous crab feed hosted by the Humboldt Club #63. I had never eaten crab before in my life and was a little leery especially since it is cold. In Atlanta, crab is served hot with butter. The crab feed event had a huge turn out and there were plenty of people to share my Snark speech with that night. To my amazement the crab was utterly delicious. Thank you so much. From there it was back to Atlanta.

All my travels were amazing considering that we were coming out of Covid with its major restrictions. I regret I was unable to travel to Australia, which I hope to rectify this coming year. I did attend the convention. in Cairns, but had to cut it short to get home to my wife, Renee.

What I take from all my travels is that we are truly more than just an organization, we are family. Like minded in both industry and in values. No matter how far we are from each other and how long we are away from each other we are one. This organization has some of the best people I have ever met in my life. I am truly honored to be allowed to be Snark of the Universe.

Many members wonder, Is Hoo Hoo worth continuing with? Absolutely! We have a long history, we have survived many ordeals throughout the world, and my belief is we will continue to meet and grow. So I encourage each and everyone of you to please attend club events, bring a guest who can have the opportunity to become a new member. We are a big part of history at 130 years and counting. So please encourage people to come and see people from around the world doing great work. It is truly inspiring to see the love and respect and dedication to this industry that we love.

I would like to personally thank you all for being there for me and giving me the support I needed to learn and continue on in this position as Snark. It just reinforces what makes Hoo-Hoo relevant in this day and age is the members from all over the world that can come together with love, kindness and dedication to support Hoo-Hoo, each other and the lumber industry.

I thank each and every member and look forward to continuing to meet with you throughout the years.

Health, Happiness and Long LIfe.

Forest Education Report

HHI - Forest Products Education Committee 2021-2022

130th HHI Convention Report, submitted 8th August 2022

1) Objective:
Implement educational initiatives to promote the forest products industry and Hoo Hoo. Successful integration across all clubs' agendas in on-going efforts will ensure a broader impact while also strengthening the club at large.

Greetings and salutations to all in splendid Sacramento, California --- the lucky convention goes! It has been too long since we were able to gather and share the Spirit of Hoo Hoo.

I would like to report that the entire Hoo Hoo International organization continues to battle the challenges that existed pre-pandemic & these new headwinds. We continue to march forward regardless. As reported via Log & Tally (e.g. Summer 2020, Fall 2021), clubs execute their regular events but intertwine them with marketing strategies incorporating the education of students, local community members, etc. on forestry practices and our industry of wood products. Good things to report but more good work to be done.

I continue to extend the invitation to share other examples of how we can spread the word with the aim of strengthening the entire organization through outreach and education.

In closing, wishes to attendees for a terrific convention with Club 109 in Sacramento and extending to all around the globe continued...

WHAT YOU WANT. WHEN YOU NEED IT.

Dimension Lumber	Timbers
Treated Products	Green & K.D.
Domestic	Export

Manke Lumber Company is family owned and has been serving the needs of the lumber industry since 1953. We take pride in milling and stocking quality lumber in a full range of commodity sizes and larger dimension timbers. We also answer your market needs for a wide variety of treated lumber products.

Our forest products are milled from carefully harvested Northwest trees ready for distribution to you—on time and at the right price.

Located in the Port of Tacoma, we have ready access to deep water shipping, rail heads or trucking terminals for longer haul loads. Manke operates its own fleet of trucks and is at your service for straight or mixed loads by truck, rail or sea.

We manufacture primarily Douglas fir and western hemlock, including

- 2x4 thru 2x12, Lengths 8-20'
- 3x4 thru 3x12, Lengths 8-26'
- 4x4 and wider, Lengths 8-26'
- 6x6 and wider, Lengths 8-26'
- 8x8 and wider, Lengths 8-26'
- Timber sized up to 12x12

HHI Chairman

What a year, or should I say, what a decade so far. This year has been crazy and it has been taxing on all of us. COVID has changed the entire world, for the better or worse, we will find out as time passes. We have canceled our meetings, we have canceled 2 conventions, and now we are finally back to meeting. While this convention will be small, we look forward to seeing everyone who can make it.

on the basis of building friendships and open communication between its members and this is even more important at this time in life. I challenge each of you to reach out to an old Hoo-Hoo friend you haven't heard from in years and just say hi and see how they are doing. Hoo-Hoo is only as strong as its members so make your old friend happy and let them know you are thinking of them.

Some of our businesses have boomed, others have closed their doors. This makes communication between members even more important. Hoo-Hoo was founded

See you in Sacramento.

HHI First Vice President

Our convention in Sacramento was very productive and had great great successes. It is always a big pleasure to meet all other club members from around the world and spend time together sharing warm moments of life or business experience.

Now, our new reality is becoming challenging, and we all have to work through that. The club had rules for club member aging and the international club declining membership due to young aging. It is time to be more flexible about the age of new members and bring the young generation into the club. Other issues which I would have to stress out are how we can involve and keep members that get active in the club, and how to attract attention to the club's large companies.

HHI First Vice President

We need to somehow get the larger companies to get involved. I will throw this question out to you all. In the meantime,

get your local Clubs to try and innovate and attract new members. At Club # 229, We support local schools and parks and The

Forest Discovery Centre. In September our club had a Fall Social, and as usual it was a great turnout with many of the members

Benefits of Bats Brochure

White-Nose Syndrome

Why are America's Bats Dying?

Scientists are currently working to determine if fungal infection is the sole cause of WNS-associated bat deaths (mortality). Since the winter of 2006-2007, at least one million insect-eating bats from at least nine states have died from White Nose Syndrome (WNS).

This disease, named for the white fungus often seen on the muzzles, ears, and wings of infected bats, poses a threat to cave hibernating bats of the United States and potentially all temperate regions of the world.

Scientifically called *Geomyces destructans*, the fungus invades the skin of bats, producing ulcers and often making bats leave their hibernation before they are ready, thereby causing starvation.

How you can help

You can help prevent the spread of the fungus by decontaminating your clothing, shoes and gear before and after entering caves.

Visit www.id.blm.gov to find out more interesting facts about Idaho's bats and about what you can do to prevent the spread of WNS!

Beguiling Bat Facts:

-Idaho is home to 14 different bat species.

-A single little brown bat can catch 600 mosquitoes in just one hour!

-Female Hoary Bats sometimes take their young with them when they hunt for food.

-The Western Pipistrelle bat weighs little more than a penny! They eat small swarming insects and their pups can fly when they are one month old.

-Some records indicate bats can live as long as 20 to 30 years.

-In Bracken Cave, Texas, 20 million Mexican free tail bats eat 250 tons of insects nightly.

-Bats do not contract rabies any more frequently than other wild animals, such as foxes, skunks or raccoons.

-Nearly 40% of American bat species are threatened or endangered.

-North America's common little brown bat is the world's longest-lived mammal for its size, with life spans sometimes exceeding 32 years.

www.fws.gov/whitenosesyndrome

The Benefits of Bats

Benefits of Bats Brochure

The Benefits of Bats

Bat. What does the word mean to you? Vampires? Blood-suckers? Rabies? Fairy tales, horror stories and rumors have given these amazing mammals a bad rap. In reality, bats are very important, not only to the environment, but to humans and the many products we use.

Principal Pollinators

Pollination is the process of moving pollen grains from the male part of the flower (stamen) to the female part (the pistil). Bats love to drink the sweet nectar inside flowers. As they drink and move from flower to flower, they pick up a dusting of pollen and distribute it to other flowers.

Bats are very important animals in ecosystems all over the world. Tropical bats are essential to the rain forest, where they pollinate flowers and disperse seeds for countless trees and shrubs.

Agricultural plants, such as bananas, mangoes, cashews, dates, avocados, peaches, cloves, and figs (to name a few) rely on bats for pollination. Bats also help distribute the seeds of these important plants, so they can reproduce and create more fruit for us humans to eat and enjoy.

Without pollinating and seed-dispersing bats, many ecosystems would gradually die. Plants would fail to provide food and cover for wildlife species near the base of the food chain. If these plants die, wildlife will die, causing entire ecosystems to deteriorate.

In the East African savannah, the great baobab tree is critical to the survival of so many species it is often called the "African Tree of Life." The baobab depends almost exclusively on bats for pollination. Without bats, baobabs would die, causing a collapse of one of our planet's most amazing and important ecosystems!

Ingesting Insects

Because bats eat so many insects, they lessen the need for use of chemical pesticides in agriculture.

Remembering these fun facts the next time you are being pestered by mosquitoes, will help you appreciate these little mammals.

Human Helpers

Scientists have been studying vampire bat saliva. It contains an anticoagulant (prevents blood clots from forming), which may soon be used to treat human heart patients.

Because bats eat large amounts of mosquitoes, they help control viruses spread by the insects. Diseases such as West Nile virus would be much more plentiful without bats.

Bats can help control the populations of beetles, moths, and leafhoppers. Many insects can hear bats up to 100 feet away and will avoid those areas occupied by bats. Some people build bat boxes and post them on their houses or sheds. If bats occupy the boxes, insects are sure to be less plentiful around those places!

Bats also produce guano (their manure) which is rich in nitrogen; this natural by-product is used to fertilize lawns and gardens.

For The Good Of The Order

The Cats Tales

SHARING THE NEWS OF HOO-HOO

J4 - Leschenaultia Club 274

Snark Paul, HHI Secretary Kalene, Fellow Supreme 9 and members of the board. Firstly my apologies for not being able to attend the meeting in person, but unfortunately work commitments have to come first. It gives me great pleasure to submit this report as S9 JIV, as the last time we were all together in 2019 seems so long ago, and much has happened since then, with mostly a negative impact on our membership. There has not been a great deal happening with our Clubs in JIV since COVID in JIV, however we were fortunate to hold our first mini-Convention since 2019 in July this year. Adelaide was the chosen city, and the convention was hosted and organized by JIV – thanks to Heather Gattone and Trish Waters.

We changed and shortened the format, which we all agreed worked, and will now be adopted moving forward. The arduous hours of non-stop day-long board meetings and AGM's became a thing of the past with the advent of Zoom meetings and the like. We enjoyed the company of almost 30 members and guests, and when you consider this was almost 20% of our current membership, statistically it was a great result. Briefly the format was as follows:

- Friday:**
 9am -11.59am Board Meeting
 11.59am 12.59pm Board lunch
 12.59 -5.59pm Free Time (or if required re-adjourn the board meeting)
 6.29pm – 8.29pm Icebreaker
- Saturday:**
 9am -12.29pm AGM and Business Session and Awards
 12.59pm – 4.59pm Excursion and historical Mill tour
 6.59-10.59pm Gala Dinner
- Sunday: Breakfast on your own and departure**

We found this gave us enough time to conduct our business, and still enjoy Fun, Friendship and Fellowship with our fellow Hoo-Hoo friends. A lot like the Sacramento slogan “Come Early – Stay Longer”, this format allows any members or guest who can only attend the formalities to do so, however if you wish to explore the designated area further you have the flexibility to do so. If the current HHI board has any questions about this, or may like to adopt it for future Conventions, please do not hesitate to see me during this one. Unfortunately as mentioned our membership continues to decline, and we are just under 170 financial

members for the whole of JIV – yes you heard me the whole of JIV!!! The Auckland has also just gone into recess, and we are hoping to retain some members as “MAL's”. Melbourne Club and Mount Gambier are also hanging on by a thread, but on a brighter note both Leschenaultia and North East Victoria Clubs have both had concats this year. After attending this years JIV convention, Danny Gattone also found a new enthusiasm for our organization, and has vowed to try and get Sydney club up and running again. I am under no illusion that this will be an easy task, but I have certainly promised my support and we

hope to hold an initial meeting with some Captains of Industry before year end. This will allow us to gauge any interest from Industry, but also have their opinion on how they could see it being viable for them and in what format – “WATCH THIS SPACE”

Talking about Leschenaultia Club No 274, it has been able to hold meetings and on World Forestry Day 2021 held a meeting for over 100 people. It was a great event, and I enjoyed myself-catching up with members both old and new. A process is under way to start a new Club in Albany with assistance from the Leschenaultia club members.

For The Good Of The Order

This club will also be presenting a Club activity award, at this year's HHI Convention.

We have lost some wonderful old time members this year, and I'm sure many of you would have had the pleasure of meeting them at some stage. I'd like to acknowledge Sigrid Howick, (Melbourne), Brian Page (Mount Gambier), Maureen Clark (Ballarat), Ross Malony, (Auckland). Others will be acknowledged formally elsewhere in the Agenda, but these were just some names I thought you may know personally. Other news is that our good friend Clarence Tan from Malaysia Club, has agreed to be my 1st Vice President, and will therefore come in as your new Supreme 9 in 2023 should he be duly voted in. This is a great achievement and Clarence will become the first Malaysian (that I'm aware of), to ever serve on the International Board.

We are also in the process of exploring our own JIV Facebook page, so hopefully I can report more about this at the Mid Year. Our next convention will be held in Melbourne sometime in July/August, and we have agreed to host the HHI Convention in Sydney 2024 should the board wish us to do so. In closing I would like to acknowledge the efforts and generosity of both Heather Gattone and Trish Waters (Secretary and Treasurer), who volunteer their time. These were both paid positions once upon a time, but alas with our membership at an all time low we have no funds to pay. Without the help of these two Ladies, and in particular Heather I feel JIV would really struggle to keep going - so THANK YOU VERY MUCH! I would also like to congratulate and thank Terri Haddix for her service to HHI on the board, and wish her and her club all the best for the future.

RAMESES 97
SUPREME 9 JIV

J5 - Cowichan Valley 229

Hello from Cowichan Valley 229, west coast of Canada.

When you read this, you will either be reading it while at the convention in Sacramento, with club 109, and all the amazing members, or in the Log & Tally, while enjoying a nice cup of coffee.

When I accepted this position as Supreme 9 of JV I was hesitant, then excited, then more excited, because I would now commit to attending Internationals. Yippee!

Jurisdiction V, which has Vancouver 48 and Cowichan Valley 229 as the two clubs in it, has been a flurry of activity in the past few months.

Both clubs have golf tournaments as one of their yearly fundraising

For The Good Of The Order

activities, along with each doing a style of Spring and Fall socials. These events are dearly needed for each club to be able to donate to their chosen groups every year, and the schools/parks/educational parks all have been feeling the pinch with out our donations. I am sure that every club has had the same issues, and I hope you all have begun to help again.

Along with donations to the BC Forest Discovery centre, Eves Park, and Vancouver Island University bursaries, our club was asked to help with replacing logs at the Forest Discovery Centre during the last year. These logs sit on a rail car, attached to a Shay locomotive, on display at the entrance to the museum. The original logs needed replacing, and the weekend they were replaced, we had Snark Paul Todd come spend a short time in BC. Paul went to Vancouver 48's Spring Social, then came to the island for a few days, taking in some adventures, visiting our annual Doug Carter memorial golf tournament, and being a tourist.

Health, Happiness and Long Life

JAN BRADFORD SUPREME 9 OF JV CLUB SECRETARY 99092

J6 - Black Bart Club 181

Black Bart Hoo-Hoo 181 Publicity Report

Hi from Northern California!

Adam Albritton and Dave Dahlen

Seattle Hoo Hoo Club #34 wishes everyone Health Happiness and Long Life

www.hoo-hoo.org/clubs/34

For The Good Of The Order

Hoo-Hoo International held its 130th annual convention in Sacramento, California from September 10 through September 13th. The convention was hosted by the Sacramento Hoo-Hoo Club 109. Seeing Hoo-Hoo members and friends from all over the world, post pandemic was a very heartwarming and joyful experience.

Snark Paul Todd, 99499, did a wonderful job leading the organization throughout the convention.

Black Bart was well represented with 12 members present. Our attendance won another pin for our Hoo-Hoo banner. The sawmill tour at Sierra Pacific's mill in Lincoln, CA was truly outstanding.

Sierra We Pacific has an outstanding team. We tasted wine and dined after the mill tour at Rancho Roble Winery which is also in Lincoln CA. The train ride to the Rail Museum was exceptional.

The winners of the golf tournament, Ben Campbell, Adam Albritton, Jim Russell, Rudy Ramos

Just some good ole boys!

The Rail museum is one of the finest museums I have ever seen. Eighty of us enjoyed a fine dinner and each other's company. We wandered the museum and went back in time. Hoo-Hoo business was conducted at the general meeting and our own Jeff Ward, 100164, President of Black Bart Hoo-Hoo Club 181 was elected to serve on the board of Hoo-Hoo International for a 2-year term as the Supreme 9 for Jurisdiction VI. He replaced John Taylor who was elected 2nd Vice President of Hoo-Hoo International. Congratulations Jeff! The Embalming of the Snark was truly a brilliant Dave and Stacy Jones production.

Call us for all your Redwood, Douglas-fir, and Preservative Treated lumber needs!

(707) 764-4450
www.MendoCo.com

REDWOOD DOUGLAS-FIR PRESERVATIVE TREATED

For The Good Of The Order

I think Snark Steve Allison, now Rameses 106, got all he bargained for in the Hoo-Hoo version of the dating game embalming ceremony. After unknowingly selecting the grim reaper for a date, they lived happily ever after for about 1 minute. The reaper took Steve into the afterlife. Unfortunately, Steve was not accepted into the pearly gates OR the hot ones and he came back as Rameses 106. Congratulations to our 106th Rameses Mr. Steve Allison. The gala dinner and magic show with music and dancing closed out the convention.

Hopefully more Black Bart Hoo-Hoo Club 181 members will attend the next convention, which is being hosted by the Cowichan Valley Hoo-Hoo Club #229, September 8 through 11 on Vancouver Island, British Columbia Canada in 2023. The Island is a wood basket for the world. You are guaranteed to have a great time, add to your lumber knowledge and make friendships that last for a lifetime.

Dead Ass Last Winners - Steve Hautala, John Gould, Anthony Rossi, Doug Heitmeyer.

THANK YOU SACRAMENTO HOO-HOO CLUB 109 FOR HOSTING THE 130TH HOO-HOO INTERNATIONAL CONVENTION. YOU DID AN OUTSTANDING JOB!

On Friday October 7th, Black Bart hosted its annual golf tournament at Ukiah Valley Golf Course. It was a bluebird day and perfect for golf and camaraderie. 15 black cat foursomes set out to shoot the new course record. I know you will find this hard to believe but the course record still stands. Team 5 with Ben Campbell 100888, Adam Albritton - guest, Jim Russell 100446, and Rudy Ramos 101639 won it all with a net low score of 56. I think we know who works selling sticks every day and who works doing environmental workshops and cruising timber every day at the local golf course. Congratulations guys! Adam Albritton won long drive and closest to the pin on #5 and #9.

The dude cleaned up! Adam, I have a slot in my foursome for you next year! After a great day of golf, a delicious lunch was served by the venerable Blue Bird Café out of Hopland, CA. The Blue Bird has been catering our golf event for decades. Robin, the owner, is retiring and sold the business. Thanks, Robin, for dozens of great meals!

For The Good Of The Order

Next up for Black Bart Hoo-Hoo Club 181:

Industry Night – January 25, 2023 Broiler in Redwood Valley, CA – Contact Dave Dahlen 707-621-0485

Con Cat – RESCHEDULED for March, 2023, date TBD - Charlie's Grill in Windsor, CA – Contact Steve Bernardi – sbernardi@all-coast.com 707-894-1617

That is all for now. Get involved! We would love to see you! The Forest Products Industry is still the greatest on the planet. The people of our industry make it so.

KENT H. BOND
PUBLICITY CHAIR - 89381
RAMESES 103

J7 - Houston Club 23

Greetings from JVII and Houston, Texas,

2022 started out with everyone wanting to get out and see people, but seems everyone was still cautious with Covid 19 still a concern. After the 1st quarter, I think most people had enough and decided to start visiting people anyway! In Houston, we always have a large gathering in May at the GHLBDA BBQ (Greater Houston Lumber and Building Materials Dealers Association).

While our attendance was down from up to 300+ in past years, we were very happy to have over 225 attend. We were able to give over \$42,000 in college scholarships from The Dan Ledermann Scholarship to children in our industry. This is also one of our charities for Houston Hoo-Hoo Club #23.

We will also have our first Golf tournament in 2 years with our 17th Bi-annual Frank Aranza Golf Tournament on October 31, 2022.

We hope to have a full crowd and look forward to a visit from our Snark Paul Todd and Rameses Jack Miller and Steve Allison after they visit the Gurdon Forest Festival the weekend before. Please contact Roland Massey if you plan to attend the golf tournament.

Most of the proceeds of this tournament will benefit Boys and Girls Country and the Dan Lederman Scholarship Fund.

Health, Happiness and Long Life

ROLAND MASSEY

PRESIDENT-
HOUSTON HOO-HOO
CLUB #23
SUPREME 9 JVII

J8 - Twin Cities Club 12

Good morning from the ever changing weather of Jurisdiction VIII. As the weather changes so does the business climate and membership.

Jurisdiction 8 lost a club the past few months. The long standing Club 118 Sioux Valley went inactive. The Twin Cities Club #12, which I am a member of, will reach out to the members of Sioux Valley. The possibility of holding an event in that area will be discussed at the next board meeting of Club #12. Bottom line is that Club #12 is the only club that is active in J-8 so that means it is our duty to get members

TWIN CITIES HOO HOO CLUB #12

Code #2:
To promote human advancement and higher standards of civic, social and economic relations by developing in business the spirit of the Golden Rule, which we accept as the basic principle of **peace and prosperity for the world.**

John Gerlach #100500
john.gerlach@weekesforest.com
651.393.2709

Proudly supporting our partnership with our communities our nation and the Forest Products Industry.

from club #118 and from our industry who are currently not members.

On a side note back in 1890 an organization called the Mississippi Valley Lumber & Sash & Door Salesmens Association was formed. This association is still active today having a luncheon once per year, Many members of Hoo Hoo club #12 are also members of the MVLSDSA. The Twin Cities Hoo Hoo Club #12 was formed in November 1892.

I am almost pretty sure that Club #12 was formed due to the membership of MVLSDSA.

For The Good Of The Order

As you continue on in the Log & Tally Magazine you will read on the happenings of Twin Cities Club #12.

J9 - Volusia Club 136

It sounds like a broken record, but the Volusia Club 136, Daytona Beach, Florida is getting ready to activate! I live in a great community with working and retired people

called Latitude Margaritaville Daytona Beach or LMDB. There are many who have worked or still work in our industry...they are my core to getting this Club re-activated.

Thankfully, I have several Members-at-Large and my family Hoo-Hoo members, Greg Young, Scarlett Beckett, Jordan Beckett and myself...that's 4 members alone to begin this Club! Purrrfect!

Working as a Realtor in Volusia County has also introduced me to several prospects. Getting Hoo-Hoo into a conversation is the key to growing a Club or growing membership.

I naturally share all of the fellowship, charity work and dear friends made in this organization...people gravitate towards these positive conversations.

We hope to have a convention sponsored by Club 136 in 2027. Please wish us good luck and success. Daytona Beach is an awesome place to have a HHI Convention. Lots of ocean, sand, sun and fun!

Health, Happiness and Long Life
