Memo from the Snark

MANNY LITVIN L60272
Snark of the Universe

"... This is what happens when you ASK FOR THE ORDER. I want to publicly thank each Hoo-Hoo for their gift to the Life Fund... a total of \$2223 from 30 Life Members."

all of the dues, and it then takes the responsibility to collect from the members. Any club out there that has the guts to take this idea on? It sure would solve HHI chasing dues. Remember, the bylaws call for ALL DUES to be paid by DECEMBER 9TH.

I am having a great time traveling around visiting clubs and sending an uplifting message to each one I visit. Please, let's hear from you with "Letters to the Editor."

Snark of the Universe
Manny Litvin L60272

In the November issue of the *Log & Tally*, I requested from Life Members a check of \$15.00 each year for a few years to build up the Fund. We were just not earning enough interest to pay the yearly dues for Life Members.

After the November issue was received, I mailed a letter to each Life Member as a reminder of my request in the *Log & Tally*.

The first check came in like this - 20 years a Life Member times \$15.00 equals \$300, check enclosed.

To my great joy others followed. As of today, we have received 43 checks: 1 - \$12, 27 - \$15, 1 - \$18, 3 - \$20, 2 - \$25, 1 - \$26, 1 - \$30, 1 - \$71, 1 - \$80, 1 - \$100, 1 - \$150, 1 - \$200, 1 - \$300, and 1 - \$999, for a total of \$2501 from 43 Life Members.

I am sure more checks will follow. This is what happens when you ASK FOR THE ORDER. I want to publicly thank each Hoo-Hoo for their gift to the Life Fund.

I received three negative responses. Andy Blackwell from J-IV told the board in Australia clubs organize clubs and work to reactivate clubs in their area.

I then asked each S-9 to contact an active club nearest to the club we want to restart. I believe that this idea would give clubs a sound project. What better way to reactivate a club than having active club members go to joint meetings and pump in some ENTHUSIASM?

The other idea that Andy brought from J-IV was that they bill each club for 100% of the dues of members that the club sends in that they consider members. The club then pays J-IV

Vice Presidents' Reports

1st VICE PRESIDENT

EDDIE Z. HUNT L85910

The International Board of Directors met for two days in Gurdon on February 4th and 5th. Many issues facing our Order were cussed and discussed, and we only had one fist fight. Most of the fireworks exploded after the meeting was adjourned!

I would again, as I have said often, like to urge the members of our great organization to please help in the effort of soliciting new members, reactivating old clubs, and helping their individual clubs to retain what membership they have.

Each club should try to have good, interesting meetings and to make the new members feel welcome and to become involved in the day-to-day administration of the club. The words in the closing of the concat are, "You can only receive from Hoo-Hoo what you are willing to contribute!"

I would also ask each club secretary to please forward their international dues to the office as soon as possible after they have been collected. It seems that some clubs have postponed this process until late in the year. This practice is causing the office some difficulties. Please do your best to help in this regard.

Health, Happiness, and Long Life,
E.Z. Hunt L85910
First Vice President

2nd VICE PRESIDENT

JAN-EVERT HERMANS L81682

Whistler in 1994 - The Convention Committee wants to make sure that everyone who comes to B.C. in September is looked after properly. If you have any special requests, please let us know, and we will try our best to help.

The responses from donors here in Vancouver to date have been absolutely fabulous, and I would like to express my sincere appreciation to all the companies that have pledged to help us. Proper acknowledgment will be given to all the companies that are taking part in the convention.

In this issue you will find how to get to Whistler. For those of you that are flying into Vancouver and do not intend to rent a car, I highly recommend you take the train to Whistler. It is a scenic route and well worth considering. We will arrange transportation from the Whistler Station to Delta Mountain Inn, providing we know ahead of time who will take the trip.

May I suggest you book your hotel and send in your registrations at your earliest convenience. We have already received many faxed registrations using the convenience of our VISA account, plus if you send it in before May 31st you save a few bucks as well.

Log & Tally - Slowly but surely you will start to see new articles in our magazine. In this issue we are changing the format a little. We are trying to accumulate forest news that is not too time sensitive but informative, nevertheless, in hopes that we learn more of what is happening in our industry as well as strengthening our argument why our industry is the only alternative for the future, regarding first and foremost lumber. Starting in this issue we are naming products that come from the forest. (See the heading "Imagine a world without forests - Imagine a day without wood.") If you consider that each of these products is an industry by itself, it does not take a brain surgeon to figure out that we have a very important industry indeed.

My wish is to have small clips of news from each of the Jurisdictions. Maybe I can get each of the Supreme Nines to help me out. If you have a story or a joke (clean enough to publish) please fax me at 604-936-0632.

Don't forget to submit your \$20.00 for the small business card ad as well as solicit companies in your area to advertise in the *Log & Tally*. I would also like to see all the clubs submitting their events schedule for 1994 along with their club news.

Health, Happiness, and Long Life,
Jan-Evert Hermans L81682
Second Vice President

Log & Tally, May 1994, page 3

Letters to the Editor . . .

Letter to the Editor:

I want to take this opportunity to tell you about an experience I had. In September 1993 I had the good fortune of attending the 101st Hoo-Hoo convention in Sioux Falls. At that convention it was decided to offer a business card size ad in the *Log & Tally* for \$20.00 for a single issue.

Manny Litvin came up to me at the convention and asked for twenty bucks and a business card. I gave him both, and thought nothing much about it till I saw my business card in the next *Log & Tally*.

Here's where it gets interesting. Not only did I see the ad, but so did some vendors. I got a call from a broker in Canada who said he was a member of Hoo-Hoo, saw my card in the *Log & Tally* and wondered if he could help me look for any lumber. Since that phone call I purchased several truckloads of lumber from this individual and in the process saved money for the company.

I wanted to share his story with all of Hoo-Hoo to let everybody know that a small investment of twenty dollars could come back many times.

Finally, thank you Manny, for asking for the order. Health, Happiness, and Long Life.

Sincerely,
Tony Vecchiolla 93587
Ken Hallgren Club #139

Letters to the Editor Welcomed...

Beginning with the May 1994 issue of the *Log & Tally*, we are publishing "Letters to the Editor". The purpose of this column is to provide Hoo-Hoo members a place for the open exchange of ideas, observations, opinions, and suggestions concerning matters of interest to Hoo-Hoo. Letters chosen to be published in this column will be selected by the Editorial Committee. Please submit your letters to "Letters to the Editor", Hoo-Hoo International, PO Box 118, Gurdon, AR 71743 or fax them to 501-353-4151.

Viewpoint . . .

selected articles and editorials from industry publications and other sources

In an attempt to bring Hoo-Hoo members an expanded diversity of industry information, a new feature has been added to the *Log & Tally*. The "Viewpoint" feature will reprint editorials and articles published in other magazines, newspapers, trade publications, etc. If you read something you think would be especially interesting or informative to Hoo-Hoo members, please contact the editor of the publication and ask for written permission to reprint the material in the *Log & Tally*. Send the article and the written permission to "Viewpoint", Hoo-Hoo International, PO Box 118, Gurdon, AR 71743.

Log & Tally, May 1994, page 4

Global Warming vs. Winter 1994

Environmentalists want us to believe the earth is heating up and that the ozone layer is being depleted. This theory has been disproved. Welcome to Winter 1994.

Because of the cold winter of January 1994, housing starts fell 12%, the lowest level in three years. We could have used this global warming on January 18th when it was 28 degrees below zero and 60 degrees below zero wind chill! It was warmer in Antarctica than it was here! Welcome to Winter 1994.

Winter 1994 froze over Lake Superior, and perch fishing was all but nonexistent. Friday night fish fry lovers had to switch to salt water fish, such as perch and haddock.

Winter 1994 brought 49 inches of snow to my home in Genoa, Illinois. The Southern states of Kentucky, Georgia, and Tennessee were crippled by ice storms. Chest-high snows hampered gun removal from areas of Bosnia. Fifteen major storms have hit the East Coast. Records for the last 20 years show us Florida has become colder! Welcome to Winter 1994.

On May 19, 1993, Al Gore told the Washington Times "that increased accumulations of greenhouse gases, particularly CO2 cause global warming." Did you know that only 4% of greenhouse gases are created by man, and 96% are created by mother nature!

Here are some real facts that will back up there is no global warming because "trees shelter the world."

- FACT: 1/3 of the U.S. is covered with forests
- FACT: Our industry plants more than 8 million seedlings per day
- FACT: We have more trees today than we did 70 years ago.
- FACT: We need trees to provide wood and wood byproducts to employee millions of people.
- FACT: Today's mills practice an application of growth improving practices that assures a sustainable wood supply over the next decades.

-submitted by Joe King, Ken Hallgren Hoo-Hoo Club #139.
(Including information from *See, I Told You So* by Rush Limbaugh, ILMDA's "Trees Shelter the World", Potlatch, and numerous newspapers.)

Information from the American Forest & Paper Association

(reprinted courtesy of the AF&PA)

The American Forest & Paper Association (AF&PA) is the national trade association of the forest, pulp, paper, paperboard, and wood products industry. AF&PA represents approximately 450 member companies and related trade associations (whose memberships are in the thousands) which grow, harvest and process wood and wood fiber; and produce solid wood products. As a single national trade association, AF&PA represents a vital national industry which accounts for over 7 percent of the total United States manufacturing output. Its members account for more than 90 percent of domestic paper and recycled paper manufacturing capacity. The forest products industry owns about 15 percent, 70.5 million acres, of the nation's 490 million acres of commercial forestland; and, in 1992, was responsible for planting 43 percent of the 1.6 billion seedlings planted in the U.S.

Employing some 1.4 million people, this industry ranks among the top 10 manufacturing employers in 46 states, with an annual payroll of approximately \$49 billion. The forest and paper products industry generates sales of \$200 billion annually and as a significant exporter to global markets makes an important contribution to the U.S. balance of payments.

CONSERVE ENERGY

From raw material extraction to finished product, the energy input is 70 times higher for a ton of aluminum than for a ton of lumber, and 17, 3.1 and 3 times higher for steel, brick and concrete block than for wood. (Corrim, 1976)

The rate that heat is conducted through a 2x4 steel stud is about two and a half times that conducted through a wooden stud. Sound transmission through steel is also greater. (USDA/Forest Service General Tech. Report RM-199, 1990)

Most of the wood that (Pacific Northwest) forests would have produced (if previous years' harvesting rates had been continued) will either come from somewhere else or be replaced by non-wood materials. (Salwasser, et. al., 1992)

Switching from wood to non-renewable structural materials will increase the nation's energy usage. In the Pacific Northwest alone, proposed harvesting reductions of 8.25 billion board feet below the 1983-1987 harvest would increase annual energy consumption an amount equivalent to 140.8 million barrels of oil, if the construction industry switched from wood to non-renewable structural materials such as steel, aluminum, concrete, brick and plastics. Carbon dioxide, a suspected major contributor to global warming, would be added to the Earth's atmosphere at an increased rate of 61.6 million tons annually, using the above scenario. (Koch, 1991)

As a construction material, and for an equivalent thickness, solid wood is 4 times more efficient as an insulator than cinder block, 6 times more efficient than brick, 15 times more efficient than concrete, and 1,770 more times efficient than aluminum. (Ashrae, 1989)

It is estimated that steel studs may require about 9 times more energy to produce and transport to the building site than wood studs; aluminum siding requires 4 times more energy, and brick veneer 22 times more energy compared to equivalent wood siding. (Koch, 1991)

IMPROVE AIR QUALITY

Woodlands consume carbon dioxide. Sequestration of carbon in trees is one way to reduce buildup of carbon dioxide, a greenhouse gas in the atmosphere. (Zerbe, 1992)

Young forests act as carbon sinks and release oxygen at a far greater rate than mature forests.

Forests are important storehouses for carbon. However, they are carbon sinks only if we assume that biomass production or carbon sequestration is higher than decomposition. This only holds true in forests which are in a growing phase. Among these are the forests managed for sustained yield from which biomass or wood is harvested. (German Ministry for Food, Agriculture, & Forestry, 1990)

The environmental impact from forestry and wood processing is less detrimental than the mining and processing of comparable building materials.

For each 1 billion board feet of wood replaced with manufactured substitutes, annual energy consumption would increase by about 720 million gallons of oil and carbon dioxide emissions would increase by 7.5 million tons. (Koch, 1991)

ARE THE RENEWABLE RESOURCE

Wood is one of the most environmentally benign of all construction materials. It is virtually the only renewable resource that is economically suited for structural and architectural purposes. (Koch, 1991)

Log & Tally, May 1994, page 5

Nominations for 1994-1995 Hoo-Hoo Officers

Nominations for International Secretary/Treasurer

Hoo-Hoo Club #31 wants to nominate **Bernie Barber, Jr.**, for the office of Secretary/Treasurer of the International Order of Hoo-Hoo.

In our judgment, Bernie has done an outstanding job in this position over the past several years. This is the only office in Hoo-Hoo that has any continuity to continue programs that have been adopted. The other officers serve only one year. It is essential for a smooth operation that there be some continuity of the person who holds this job.

Sincerely,
Bill Barr
Vicegerent Snark of Hoo-Hoo Club #31

I take pleasure in nominating **Mr. Royce Munderloh 84331** for the position of International Secretary/Treasurer. Royce has been a member of Hoo-Hoo since 1977 and is a member and past president of Omaha Club #124 and is now serving on the Supreme Nine for Jurisdiction VIII. A proven administrator, he is vice president and comptroller for Millard Lumber Company. I know that he will do an outstanding job as our Secretary/Treasurer, and I solicit your support.

Health, Happiness, and Long Life
Edward L. Gavotto L63822
Supreme Nine
Jurisdiction VI

I note a nomination for this office by Supreme Nine Edward L. Gavotto for **Mr. Royce Munderloh**. I wish to second this nomination.

Mr. Royce Munderloh is presently Supreme Nine for Jurisdiction VIII, and as such has done an admirable job. He is well qualified to handle our finances as he is Treasurer/Controller for Millard Lumber Company of Omaha, Nebraska, a very large yard with a huge volume of business. He has done an outstanding job for these people and would do the same for HOO-HOO INTERNATIONAL.

Health, Happiness, and Long Life
Homer H. Hahn, Secretary/Treasurer
Omaha Club #124

Nomination for Supreme Nine for Jurisdiction VI

I, with the full support of the Black Bart Hoo-Hoo Club #181, am extremely proud to nominate **Gary M. Gamble 79682** for the position of Supreme Nine for Jurisdiction VI.

During Gary's twenty-six years as a member of Hoo-Hoo, he has been very active in Club business. He was elected Club President for two separate terms, served on the Board of Directors for fourteen years, has held various offices in Club #181, and is currently the Deputy Supreme Nine for J-VI.

He is well liked by the membership, and we strongly believe his leadership will be a great asset to the Order and to Jurisdiction VI.

Yours Fraternaly,
Karl W. Drexel 82072
President, Black Bart Club #181

I would like to second the nomination of **Gary Gamble** for S-9, Jurisdiction VI of Hoo-Hoo International. I have served on the Board of Directors of Club #181 with Gary several times during the years I have belonged to Black Bart. Gary is a leader and a positive thinker and will serve Hoo-Hoo International very well. Gary is a successful lumberman and also a leader in pallet manufacturing and still has time to devote to Hoo-Hoo.

Fraternaly,
Jimmy Jones
Rameses #72

Members asked for input on Hoo-Hoo International proposed bylaw revision

"According to our current bylaws, this is your official notice that a change in the bylaws will be voted on at the next annual convention to be held this September at Whistler, B.C."

For the attention of all members. The bylaws are the regulations that you, as members and shareholders of Hoo-Hoo International, have put into place. It is a "living" document. The officers and directors you elect are governed by these regulations. The policies of Hoo-Hoo International are governed by these regulations.

Throughout the years there have been a number of specific revisions made reflecting changing needs of our Order. At the last annual convention the deletion of the word "male" necessitated a major rewrite. We have taken this opportunity to establish a Task Force Committee to review all our bylaws and to examine each word, each sentence, each meaning, and each intent. Language has been clarified and sections reorganized for easier reading. The draft you see here is the result of hundreds of hours of careful scrutiny involving over 30 revisions. A copy of the original bylaws can be found in your Operations Manual.

According to our current bylaws, this is your official notice that a change in the bylaws will be voted on at the next annual convention to be held this September at Whistler, B.C. The revised bylaws will become effective immediately following a successful affirmative vote.

While it is possible to amend the proposed changes at the convention, the committee invites every member to review this proposal now and to contribute comments and suggestions as early as possible. The ability of the committee to have the time to carefully consider and review every suggestion before making its recommendations is of paramount importance. Please mail your contribution directly to the Chairman of the Committee, Bill Bader, Rameses 69, 22 Laverock Street, Tottenham, Ontario, Canada L0G 1W0. Please fax Bill Bader direct at 905-936-1014.

Bylaw Task Force Committee

Chairman: Bill Bader L75318 Rameses 69 Canada
Ernie Wales L45412 Seer of the House of Ancients USA
Dave Marteney L65075 Rameses 67 USA
Jack Jacobson L73133 Rameses 79 USA
Phil Cocks L77298 Rameses 81 USA
Brent Crosby L77009 Rameses 81 USA
Doug Howick L80748 Australia

NOTICE PROPOSED BYLAW REVISION

Snark Manny Litvin appointed a special committee chaired by Bill Bader to update our current bylaws.

The committee worked many hours, and after nine drafts, presented a proposed bylaw revision. The Legislation & Good of the Order Committee reviewed the proposals for revision and submitted changes and additions they felt were appropriate.

Each club president and club secretary/treasurer received a copy of the Proposed Bylaw Revision and a copy of the L&GO Committee recommended additions and changes.

It is important that each club meet and discuss these proposals. Please send any additions, deletions, comments or revisions to the Snark at Gurdon on or before August 1, 1994. These will then be included in the discussions at the convention. Contact your club president for further information.

Five-year plans dominate mid-year board discussions

The Hoo-Hoo International Board of Directors met in Gurdon for a two-day meeting beginning on February 4, 1994. During the meeting, the board discussed and considered at length the suggestions presented in the Five-Year Plan for Hoo-Hoo International and the Five-Year Plan for the Hoo-Hoo Museum. The board also decided that beginning with the 1994-95 club year, international dues for new members would no longer be prorated.

Board members also reviewed a draft of the HHI bylaw revisions as prepared by Rameses 69 Bill Bader and his committee. The revisions have recently been mailed to all club presidents and club secretaries/treasurers in order for all club members to have an opportunity to study its contents.

Other business taken by the board included the following: (1) making some changes and additions to the contents of the *Log & Tally*; (2) introducing a plan to make available to local clubs a trade-related video library; (3) voting to not issue Hoo-Hoo pin numbered 99999 and to retain the pin in the Hoo-Hoo Museum; and, (4) deciding to invest the monies in the Life Membership Fund in government insured bonds.

During the Hoo-Hoo Museum Board of Directors meeting on Saturday, February 5, 1994, the board discussed the Five-Year Plan for the Hoo-Hoo Museum. The board also discussed several methods of providing publicity for the museum.

Following the meeting on Friday, a cocktail party was given by the Snark, and then all those present enjoyed a catfish dinner. On Saturday, February 5, the board met again at the international office in Gurdon and completed the business session. On Saturday evening, the Hoo-Hoo group was graciously invited to dinner in the home of Charles and Anita Cabe.

International officers attending the mid-year board meeting in Gurdon in February are, left to right, front row, Jan-Evert Hermans, Second Vice President; Brent Crosby, Chairman of the Board; Manny Litvin, Snark of the Universe; Eddie Z. Hunt, First Vice President; and Bernie Barber, Secretary/Treasurer. Standing, left to right, are Kevin MacPhee, Supreme Nine, J-I; Bob Carper, Supreme Nine, J-II; Tom Stumpf, Supreme Nine, J-III; Andy Blackwell, Supreme Nine, J-IV; Norm Thomas, Supreme Nine, J-V; Ed Gavotto, Supreme Nine, J-VI; Tom Lynn, Supreme Nine, J-VII; and Royce Munderloh, Supreme Nine, J-VIII.

The most natural resource in all our products: good ideas.

Louisiana-Pacific has built its reputation as a leader in the development of innovative building products. We're dedicated to sustaining an ever-growing demand for durable, practical, affordable building products.

For example, to make our family of oriented strand board products, we used small, fast-growing trees, eliminated wood's natural weaknesses, and added our own designer label: Inner-Seal®. Our FiberBond® panels and Nature Guard® insulation use recycled wood fiber from newspaper. And our engineered wood products use laminating and finger-jointing techniques to make more out of less.

Whatever products L-P offers, today and in the future, you can be sure they'll always be based on one natural resource we'll never run out of: good ideas.

For more detailed information on any of our products, call us at 1-800-299-0028.

LP Louisiana-Pacific
Doing something about it.™

IMAGINE A WORLD WITHOUT FORESTS
 IMAGINE A DAY WITHOUT WOOD

CONVENTION

Distances in Km/miles	
Brisbane - Gympie	160 - 100
Gympie - Maryborough	92 - 57
Brisbane - Ayres Rock	2354 - 1471
Ayres Rock - Alice Springs	478 - 299
Alice Springs - Darwin	1532 - 958
Darwin - Kakadu	260 - 162
Darwin - Katherine	354 - 221
Darwin - Cairns	1800 - 1125
Darwin - Brisbane	3077 - 1923

Day 5.

We depart Darwin this morning after breakfast for Kakadu National Park via the Adelaide River and Marrakai Plains. The rock art and archaeological sites of Kakadu represent one of Australia's great cultural treasures. We will continue to Ubirr, the renowned aboriginal art site set in beautiful rugged country. Here many rock drawings and peckings may be viewed and photographed. An opportunity for a short guided bushwalk for superb views across the wetlands. We then move on to the Ranger Uranium Mine Site.

Day 6.

Following breakfast today we visit the National Park Headquarters and Jabiru township. We continue to Nourlangie Rock which is home to some of the first Aboriginal rock art in the Kakadu region for further aboriginal artwork inspection. We will enjoy the famous Yellow Waters Billabong Cruise to observe the saltwater crocodiles and see the prolific birdlife. After a lunch we will head south through the hill country to Pine Creek and Katherine.

More to follow. . .

Wood Promotion Award challenges clubs to promote use of wood

"Every Hoo-Hoo club should, on a continuing basis, have knowledgeable lumbermen available for speaking engagements, on wood promotion."

The Hoo-Hoo International Wood Promotion trophy is awarded each year to the club which is judged as having best promoted the use of wood, whether locally, nationally or internationally. It is a coveted award that has recently enjoyed a resurgence of interest among Hoo-Hoo clubs who compete for the award at each annual international convention. Perhaps your club could be the next winner of the Wood Promotion Award.

The purpose of a local Hoo-Hoo wood promotion project is to provide a local "grass roots" approach to wood promotion. The local program should supplement and tie in with the wood promotion activities of regional and national programs, because person-to-person contact and personal influence is a more effective method of selling our side of the wood resource story. Wood promotion projects should be designed to get the broadest local exposure possible to the greatest number of people and should be dramatic enough to have lasting value. Every person in a Hoo-Hoo club's center of influence (city, county and state) should be aware of the role the forest products industry plays in forest maintenance, use, and renewal.

SELECTION OF A WOOD PROMOTION COMMITTEE

The club president is responsible for wood promotion. He should appoint a wood promotion committee with a fireball type, self-motivated chairman to handle the wood promotion project. The club president or another club officer appointed by the president should maintain close contact with the wood promotion committee to be certain they are getting the job done. Committee members with sales experience, merchandising expertise, and public relations experience are the best types of members for the wood committee since a successful wood promotion project is actually a gigantic sales, merchandising, and public relations effort.

SPEAKERS, BUREAU OF WOOD PROMOTION

Every Hoo-Hoo club should, on a continuing basis, have knowledgeable lumbermen available for speaking engagements,

on wood promotion. Excellent programs on wood promotion are available from the various lumber associations like the American Plywood Association, Southern Forest Products Association, WWPA, California Redwood Association, etc., and from most lumber manufacturers like Georgia Pacific, Weyerhaeuser, etc. These organizations are most happy to supply local lumbermen with these programs for local use. The local chamber of commerce is a good place to advertise your wood promotion program, as they usually offer a speakers bureau brochure to their members and are most happy to have "Wood Promotion" included.

An active committee can initiate wood promotion programs for social and business groups like Rotary, Kiwanis, Optimist, Lions, Cosmopolitan Clubs, etc. These wood promotion programs are very popular with these groups.

Public and private schools are quite receptive to wood promotion programs. The students are eager to hear our story, and who could select a better audience to hear this important message than school children.

LOCAL EXPOSURE

Local public television is a natural for a local wood promotion program. Thirty minute program time for a "Forestry" presentation on public television can be purchased at extremely reasonable rates. Imagine the exposure available through the TV media. Proper publicity of your TV wood promotion through free ads can insure a good viewing audience when your show is broadcast.

Radio, newspapers, and magazines are also good vehicles for wood promotion activities, and Home Shows and Trade Shows have in the past proven to be quite effective.

If you would like additional information on Wood Promotion projects, contact the International Office at P.O. Box 118, Gurdon, AR 71743 or phone (501) 353-4997 or FAX (501) 353-4151.

Following is a list of Wood Promotion winners since the program began in 1959:

- 1959 Willamette Valley Club #33, Eugene, Oregon
- 1960 Vancouver Club #48, Vancouver, B.C., Canada
- 1961 Shasta Cascade Club #133, Redding, California
- 1962 Salt River Valley Club #72, Phoenix, Arizona
- 1963 Okanagan Club #208, Okanagan Valley, B.C., Canada

- 1990 Brisbane Club #218, Queensland, Australia
- 1991 Spokane Club #16, Spokane, Washington
- 1992 Melbourne Club #217, Victoria, Australia
- 1993 Winema Club #216, Klamath Falls, Oregon

Jack Cheshire Media Award recognizes excellence in the use of media

"Oftentimes, the media desperately needs a story to fill extra time or space, and Hoo-Hoo is a prime candidate for attracting news reporters!"

Any good businessman will tell you that in order to increase a company's visibility and build its image, it must promote itself. The same is true for an organization like Hoo-Hoo. We have a good product (fraternalism), and in order to share it with others in our industry, we must let them know we exist.

That is why Hoo-Hoo International introduced the JACK CHESHIRE MEDIA AWARD.

This award is given annually to the Hoo-Hoo club which has best utilized the media to promote our order. The term "media" includes television, radio, newspaper, magazines, newsletters, etc. The 1986 convention in Bretton Woods, New Hampshire, was the debut for this award which is named for Rameses 64 Jack Cheshire of Albuquerque, New Mexico. Jack was a staunch promoter of Hoo-Hoo and devoted many years to the promotion of our fraternity.

Many clubs make a regular practice of notifying the media about special club events, such as community projects, scholarship presentations, lumber or wood seminars, or just a regular meeting at which a newsy guest speaker is scheduled to appear.

Oftentimes, the media desperately needs a story to fill extra time or space, and Hoo-Hoo is a prime candidate for attracting news reporters!

Contact your club's Board of Directors and ask about participating in the JACK CHESHIRE MEDIA AWARD at the convention in Leura, N.S.W., Australia. For more information on judging rules, call or write the International Office at P.O. Box 118, Gurdon, AR 71743. The telephone number is (501) 353-4991 or FAX (501) 353-4151.

Following is a list of JACK CHESHIRE MEDIA AWARD winners since the award began in 1986:

- 1986 Auckland Club #248, Auckland, New Zealand
- 1987 Honolulu Club #142, Honolulu, Hawaii
- 1988 Melbourne Club #217, Victoria, Australia
- 1989 Woy Woy Club #260, Woy Woy, N.S.W., Australia
- 1990 Seattle Club #34, Seattle, Washington
- 1991 Sydney Club #215, N.S.W., Australia
- 1992 Atlanta/Dick Wilson Club #1, Atlanta, Georgia
- 1993 Melbourne Club #217, Victoria, Australia

Wood Promotion Award

Rules governing club trophy

1. The club may submit evidence covering all wood promotion projects adopted by the club, including National Forest Products Week.
2. The entrant club will make its presentation to the judges and the convention. Tangible evidence of the projects(s) must be submitted by the club delegate, who must be conversant with the project from start to finish as he may be interviewed by the judges. This evidence may consist of newspaper clippings, photos, scrap books, samples, or display material. A slide projector will be available.
3. Each participating club must submit a written outline of the wood promotion project(s) to contain the following: (a) A description of the project(s); (b) State the goal of the project(s); (c) Tell of the method of operation; (d) Specify the relative proportion of financial and/or manpower support from cooperating organizations; and (e) Statement of the results.
4. **DO NOT SEND CLUB CONTEST MATERIALS TO THE INTERNATIONAL HOO-HOO OFFICE.** The club delegate is responsible for all contest materials, and for providing the Log & Tally with a complete story for publication. The delegate may ship the materials, addressed to himself, in care of the convention hotel, marked "hold for arrival on September _____, 19__."

5. Decision of the judges will be final. A club is eligible to be awarded the trophy in two or more consecutive years. In the absence of an acceptable club presentation, at the discretion of the judges the trophy may be retained in the International Headquarters for one year. In addition to the trophy, certificates will be presented to the clubs placing first, second, and third. No judge shall be appointed who is a member of a club making a competitive presentation.
6. Hoo-Hoo Clubs wishing to make a presentation for the trophy are requested to advise the International Office by letter prior to August 20th of each year.
7. Each of the following facets of a wood promotion project shall be rated by each judge, independently of the other, on a scale of 1 through 10 for letters C and D and 1 through 5 for letters A, B, E, and F, 10 being the best.

- A - Accomplishment based on size of the club.
- B - Involvement of members.
- C - Immediate effect on the community.
- D - Lasting effect on the community.
- E - Written presentation.
- F - Oral presentation.

The Jack Cheshire Media Award

Rules governing the Jack Cheshire Media Award

1. **Intention:** The intention of the award is to encourage and recognize media achievements of the clubs in Hoo-Hoo International. The award shall be for the best media efforts and achievements and recognizes the importance of Hoo-Hoo supporting itself and its sponsoring industry by the sensible use of this important vehicle.
2. **Titles:** The name of the award shall be the JACK CHESHIRE MEDIA AWARD. The trophy plaque has been provided by Hoo-Hoo International and will serve as a perpetual award.
3. **Eligibility and submissions:** (a) All clubs in HHI are eligible for the award and may make a submission at the call of the HHI executive. (b) Each entrant shall provide full details of their media efforts by way of reports, clippings, photos, videos or films or any other evidence including audience. (c) Entrants shall provide its submission by the time stipulated by the international office, which is the 9th day of August preceding each annual convention. (d) The eligible media shall be newspapers, radio and television, either local or of wider circulation or coverage, and shall include the public media, forest industry media, and company or other in-house media. (e) Media coverage can include that of club activities to the public and to the industry, industry activities to the public or any other media coverage which promotes the activity and role of Hoo-Hoo. (f) Entrants shall provide the name(s) of the people who achieved this media result. (g) Entrants may provide

- additional written comment explaining any special feature, local difficulties or any other factor which they feel should be considered by the judges. (h) Submissions can be made for single or a few outstanding media achievements during the Hoo-Hoo year under consideration.
4. **Judging:** The JACK CHESHIRE MEDIA AWARD shall be judged by the judging committee. The time of the judging shall be during the annual HHI convention. The selection of the winner shall be at the sole discretion of the judges and no right of appeal will be considered. The judges shall consider the following criteria when making the decision but have the right to decide the relative importance of each of the criteria.
 5. **Judging Criteria:** (a) The primary criteria shall be the media exposure of the Order of Hoo-Hoo, its image and the role that Hoo-Hoo and the forest industries play. (b) Judges shall consider both the work put in (gaining media attention is hard work!) and the quality of the result. (c) Judges shall consider all the forms of the media-printed word, radio, and television. (d) The award shall be for the "media coverage" rather the "activity" since the "activity" may possibly be the basis of other Hoo-Hoo awards.
 6. **ANNOUNCEMENT OF THE WINNER OF THE AWARD AND PRESENTATION OF THE TROPHY:** The winner of the award shall be announced by the judging panel at the HHI Annual Convention and shall be presented to a representative of the winning club.

Club #48 cordially invites you to

Attitude at Altitude. . .

Supreme Nine Reports and Club News

JURISDICTION

Greetings to all from the snow bound North.

Cold weather has slowed Hoo-Hoo Club activities in the first two months of 1994, but miraculously has not slowed business activity.

February has been an active month for myself, starting with the midterm Board of Directors meeting in Gurdon, Arkansas, on February 3, 4, and 5. Highlights of the meeting were discussion of the five-year plan for HHI and a complete bylaw rewrite submitted by Bill Baeder of Toronto Club #53. I will be sending copies of this to J-I club presidents shortly. Also discussed was the upcoming International Convention in Vancouver at Whistler Mountain. The facilities are world class and attendance is expected to exceed three hundred people. Second Vice President Jan-Evert Hermans L81682 advises everyone to make reservations as early as possible because of the expected attendance. Don't wait until the last minute.

February 15-17 was pent with Snark Litvin traveling to D.C. Club #99 and Hampton roads Club #154. Congratulations to Hampton Roads president W. Scott Robinson on your concat bringing eight new kittens (including two women) into your club. Also thanks to all at Washington, D.C. Club #99 and Hampton Roads Club #154 for your hospitality.

During this trip Snark Litvin and myself had the pleasure of meeting with the American Forest and Paper Association and the National Lumber and Building Materials Dealers Association. We are trying to form an alliance between Hoo-Hoo and these groups for educational and political purposes to give Hoo-Hoo and its members a voice of truth against the widespread non truths spread by various environmental groups. Gary Donnelly, Executive Vice President (NLBMDA), and Allynn L. Howe, Director, Government Affairs (NLBMDA) were concatenated into the order by Snark Litvin and are now members of D.C. Club #99. Mr. Donnelly is going to try to arrange a meeting between the International Officers and President Clinton.

And to wrap up a busy month, February 24-28 will find me in Hilton Head Island, South Carolina, with some members of Roger Williams Club #51, First Vice President Ed Hunt, and S-9s Tom Lynn and Tom Stumpf for lots of golf, relaxation and Hoo-Hoo bonding.

Up-coming lists of club events are as follows:

D.C. Club #99

March - Professional Sales Training
April - Ladies Night
May - Golf Outing

Also, possible building material auction.

Contact: Bert Miskell 301-473-4621 for dates and time

Granite State #107

March 8 - Ski Outing
April - Bill Veazey Night
Avery's Restaurant
Laconia, New Hampshire
Date - TBA

May - Rain Forest Presentation
"Old Timers Night"
Portsmouth, New Hampshire
June 2 - Golf Tournament - Clam Bake
Lake Sunapee Country Club
New London, New Hampshire

Contact John Wood for details 603-432-0573

Harry L. Folsom #13

March 7 - Pin Night
April - Ladies Night
Cruise on the Spirit of Boston (date TBA)
May - Old Timers and Past Presidents Night
June - J-I Mini Convention

Contact Bob Fitzpatrick for details 508-839-1185

Supreme Nine, Jurisdiction I

WASHINGTON, D.C. CLUB #99

The club's January meeting, featuring speaker Bob Vieno, was canceled due to bad weather. The program was rescheduled for the March meeting.

February was a special time for Club #99 with a visit from the Snark of the Universe, Manny Litvin. He spoke to the club from his vast knowledge on the love of his life, the Concatenated Order of Hoo-Hoo. Kevin MacPhee, Supreme Nine for Jurisdiction I also attended the meeting.

Respected and well-known national business consultant, trainer and public speaker, Bob Vieno provided a sales training program to the club in March. Bob has an impressive client list. His informative presentation was filled with new ideas for owners, managers, and salespeople.

Looking ahead, the club plans a Ladies Night in April and the Annual Spring Golf Outing in May followed by election of officers and possibly a concat.

GRANITE STATE CLUB #107

February 23rd, fifteen people braved the elements to attend dinner then went to a dynamite basketball game at New Hampshire College as New Hampshire College defeated the University of Mass/Lowell in a tight match up.

March 8th, once again Steve Johnson provided a fun-filled day of skiing at Mt. Sunapee Ski Area. Dinner was held afterwards at the Lake Sunapee Country Club where 38 people attended.

GRANITE STATE CLUB #107. John Wood, right, president of Granite State #107, is shown presenting Judy Sargent, the first woman member of Granite State, with a special certificate.

JURISDICTION

Writing the Log & Tally report in March for the May issue is always a problem. Who wants to read about what happened in late winter in late spring?

Let's think about things that have just happened or will happen in the future.

May 3rd, Detroit Club #28 and Saginaw Valley club #246, held their joint golf outing. I believe that this is a first. This is usually a Saginaw outing with Detroit being invited. Maybe joint ventures are the way to go! In any event, it is something different and may spark more interest and attendance.

The Detroit Club this year is trying a new format, fewer meetings, hoping that more members will attend meetings if they are well planned and of interest to all. This year the Detroit Club's officers and directors have many new and younger faces. Their enthusiasm shows at their board meetings, and their willingness to get involved. Now whether the club members want more meetings, fewer meetings, more golf, more educational meetings, or what, remains to be determined. I challenge each club member to make his or her feelings known. If you like what they are doing, "TELL THEM," if not, "TELL THEM." I am certain that they are eager to follow the members' wishes.

It's not too early to firm up your plans to attend the 102nd International Convention at Whistler, B.C., Canada. The

convention is scheduled for the 7th-10th of September 1994 and is sponsored by the largest club in all of Hoo-Hoo land, Vancouver Club #48. From all I have read and heard about Whistler, this will be a magnificent location for an outstanding convention. Hope to see many from J-II at Whistler.

Next year, we of J-II will not have far to go to attend the International Convention. Milwaukee is only a few hours' drive from any club location in the jurisdiction. From all reports from the Milwaukee Club #35, and the Northern Illinois Club #139, plans are "FLOWING WELL" to make the 103rd Hoo-Hoo International Convention one not to miss. This would be a great time for club members that have never attended a convention to give it a try. I'll bet you will like it.

Membership in most clubs is still a big problem. The only way that it will change is for each club member to look around you, in your own company or companies that you do business with. There are plenty of qualified men and women in every club area. Your job is to identify them, bring them to meetings so that they can learn about Hoo-Hoo. When they are interested, you can then sponsor them into the "WORLD'S OLDEST AND GREATEST FRATERNITY."

Health, Happiness, and Long Life.

Bob Carper L66161
Supreme Nine, Jurisdiction II

LOG & TALLY - 3

Supreme Nine Reports and Club News

DETROIT CLUB #28

Since our last notice to the Log & Tally, Club #28 has been busy indeed. On January 10, 1994, the Detroit Club reaffirmed its commitment to host the 1998 International Convention, and in doing so, named member John Schneider as Chairman of the 1998 Convention. We look forward to assisting John with all the arrangements and planning that will need to be done.

On January 29th, many of our members and their wives enjoyed the very funny production of "What the Bellhop Saw" at our First Annual Theater Night at the Dearborn Players Guild of Dearborn, Michigan. Steve Gautreau, Club #28 board member, played the painfully unlucky hotel guest. This was a great chance for members and guests alike to get together and have a fun-filled evening with Hoo-Hoo.

On March 24th, Detroit will be holding its Industry Night with presentations by Greg Fenn with APA and Bob Dietzel with Louisiana-Pacific. They will be informing us on the changes in engineered wood products. They call their presentation "The Wave of the 90s." We hope to have a good turn out for this meeting since our educational meetings have been very popular in the past.

Our next scheduled event is a Christmas Tree/Seedling exchange planned for April 23rd. Oakland County residents received a coupon redeemable for a free pine seedling when they brought their Christmas trees to the county parks to have them chipped up for mulch. The seedlings are to be passed out at the Oakland County Annual Earth Day Fair. We hope to give away more than 2500 assorted pine seedlings in our on-going project with the Oakland County Parks.

Our second issue of the Club #28 newsletter "The Branch" was hot off the presses and in the mail on Friday, March 18th. This issue has information regarding our proposed concat changes, our upcoming convention, past events and a calendar of future events. Also included are informative articles from Snark Manny Litvin and J-II representative Bob Carper. If anyone is interested in receiving a copy of "The Branch," please contact Club #28.

Health, Happiness, and Long Life

-Matt Miller 93956

KEN HALLGREN CLUB #139

Club #139 has been busy with many events. We started a newsletter to keep our members informed on what's going on. It's been a success so far.

We recently had a lumberjack night. We had prizes for most authentic lumberjack looking costume. This was won by Tony Boeckholt. We had many skill competitions in timber cutting, board cutting, nail driving, and ax chopping.

A June golf outing and recruitment drive is in the works. We want to get new members and warm up our duffers for the fall classic with the Wisconsin club. Note, we will get our trophy back in Illinois, its rightful home!

A late July meeting, featuring Arnie Nebelsick of the Western Red Cedar Association, and concat is planned for this meeting. Our first lady Hoo-Hoo member, Patti Stasiak, will be concat! A September golf outing, a rematch with the Wisconsin club, for our honor and trophy is planned.

A ladies' night is being planned for October and one idea is to go on one of the new gambling casinos on the river in Aurora. More details on this in our next update.

Health, Happiness, and Long Life.

-Joe King

JURISDICTION

I am going to spend a little time on history and a long time on the future.

March and April were spent on the campaign trail, spreading the word of Hoo-Hoo, visiting eight different clubs, some more than once. I have found there are many supportive and strong believing people involved in Hoo-Hoo.

Mid-year was full of positive thoughts and reinforcements. Now to the future.

May will bring the Snark of the Universe to the Pacific Northwest. His visits will include Seattle, May 10th; North Cascade, May 12th; Klamath Falls, May 13th; and Portland on

Tom Stumpf 90884
 Supreme Nine, Jurisdiction III

SPOKANE CLUB #16

On January 20, Past Presidents' Night was enjoyed by a quality crowd at the Depot Restaurant. The names of all the past presidents since the 1921 founding of the club were read and elicited comments from some newer members who remembered some PP's.

Ten of our living past presidents were personally honored.

A short form concat was held by a degree team composed of past presidents plus president-elect Mike Sheehan. Kris Wales was the Snark, and Seer Ernie Wales was the Visiting Officer. New members concated included the club's first women members. New members are Debbie Marker from Dellen Wood Products; Ann Romeike from A.S.A. Management; Verna Sanford from Timber Products Manufacturers; John Gottwald of Inland Wood Specialties; Steve Maguire of Valley Bestway Building Supply, John F. Alcano from Pro Cut Saw & Tool, and L. Kirk Hopkins of Spokane Moulding Co. Dan Larson of Spokane Moulding Co. joined the club by reinstatement.

The club had a "cozy" group at the Valentine Party of February 17. President Elzy Jordan presided.

The prestigious "Snark Gene Zanck Award" was given to past president and past Supreme Nine Norm Mikalson. Since Norm couldn't attend the dinner, past award winners Tony Perry and Ernie Wales went to Norm's home and surprised him with the presentation of the plaque. Congratulations, Norm. You surely do deserve it.

Program Chairman Tony Perry has arranged a special "Sports Night" for the club in March.

-excerpts from the club's newsletter "Hoo-Hoo Hi-Lights"

WILLAMETTE VALLEY CLUB #33

The March meeting for Club #33 featured guest speaker John Lively, the executive director of the Eugene/Springfield Metropolitan Partnership. John was instrumental in obtaining the much talked about Sony Company deal and getting them to land in our community. John spoke at the Eugene Transportation last winter and was one of the most interesting presentations heard in a long while. Everyone must realize his work to bring in new business brings in people spending money in our community. And for us in the forest products industry, it means potential business for us. New homes, remodeling, new building, etc. And their dollars pumped into our community helps our taxes, business, etc.

PORTLAND CLUB #47

January 14 was a Night at the Horse Track at Portland Meadows Racetrack for club #47. The evening included dinner, racing, and lots of fun with 37 attending.

February 17 had the club gathering to watch the Portland Winter Hawks. It was a great hockey night for the family with lots of kids there. Louisiana Pacific Corporation sponsored the tickets. Matt Dierdorff, first vice president, worked out a great program. Thanks, Matt.

A concat was held on March 25. Tom Stumpf, Supreme Nine for J-III was a guest. Glenn Lowe directed the concat and did a great job. The club welcomed five women and 10 men into the order. The new kittens are Scott Reckamp of Fullmer Lumber; Kim Chandler, Gerre Vickers, Bryce Muir, Teresa Thiessen and Rick Cooper of Ore Pac; Elizabeth Gates of Emerson Hardwoods; Taylor Valleroa from Precision Lumber; Larry Baugh from Chatelain Group, Inc.; Anna Wright from All Americas Trucking; Sean Bailey of BMC West; James Beane and William Beane of Beane Construction Co.; and Brian Calmer from American International.

-reported by Jim Talley

PORTLAND CLUB #47. At the club's March concat, fourteen kittens were welcomed into Hoo-Hoo. The group included five women and nine men.

TACOMA-OLYMPIA CLUB #89

We started the New Year 1994 with a well attended meeting at Diamond Jim's Restaurant. We had as our guest speaker Lou Whitaker and his wife Ingrid. Lou is a world famous mountain climber who has his own climbing service on our beautiful Mount Rainier about 50 miles southeast of Tacoma. He has climbed Mt. Everest, K-2, Mt. McKinley in Alaska, and in South America. He had many slides and is a very interesting speaker. A great time was enjoyed by all.

February 1st we held our Annual Casino Night at Eddie's Catering Hall. The members that were present enjoyed a fine dinner prepared by Eddie's. Many prizes were auctioned off by auctioneer Bob Daga. A great time was had by all, but this event has lost its luster with so many other forms of gambling and entertainment around. We just don't get the membership out. The board members are going to look hard at Casino Night for next year.

March 1st we held our Annual Crab Feed and Beer Bust at the Rotunda in the beautiful restored Union Railway Station in downtown Tacoma. We had 97 members and guests in attendance. Eddie's Catering did an outstanding job in serving 250 lbs. of crab plus prime rib. Joe Scheffler, Jerry Turner, and Fred Bleich were great in keeping everybody's thirst under control.

For our guest speaker we had Jim Lambright, coach of the University of Washington Husky football team. He gave a very interesting rundown on the team and the future. Since this is Jim's first year as head coach of the Huskies, we all expect great things for the fall football season.

Our April meeting will be a short concat and good fellowship.
 -reported by John Crawford

TACOMA-OLYMPIA CLUB #89. Mountain climber Lou Whitaker was the guest speaker at the club's January meeting. He presented an interesting program describing some of his mountain adventures.

TACOMA-OLYMPIA CLUB #89. Bob Dagais, left, assisted by Jeff Peterson, served as auctioneer for the club's Casino Night.

SHASTA CASCADE CLUB #133. Chris and Dave Schaller grace Snark Manny Litvin with a rare father-son photo at the club's January meeting. Snark Litvin helped initiate the club's 10 new kittens.

SHASTA CASCADE CLUB #133

January 21, 1994, marked the day of the club's annual initiation. The event was the usual great success. At this time the club would like to welcome ten new kittens initiated into the club. The new members are Wes Allen Lane and Tony James Phillips of Lumberjack Building Materials; Brad S. Snodgrass from Jeld-Wen Inc.; William Thomas Barron from L&B Lumber & Milling; Mike J. Wylde and Hardy Vestal of Big Valley Lumber Co.; David Eugene Carnell of Western Buyers; Peter William Rogers from Munnell & Sherrill; Dan H. Williams of Hardware Wholesalers Inc.; and Ron Kenneth Knowles from Knowles Trucking.

Manny Litvin, Snark of the Universe, was present and helped to initiate the kittens into the concatenated order. He shared his wisdom with the entire club in which over 85 were there. The club was also honored by the presence of Supreme Nine member Ed Gavotto and other Hoo-Hoo dignitaries, Dave Jones and Gary Gamble of the Vallejo club. The concat event included

outstanding dancing entertainment that Club #133 has become known for, far and wide. This year was no exception with dignitaries and special members receiving the usual "TIPTOP" service. Rumor has it that nine out of the ten kittens fell in love that night with our Hoo-Hoo beauties. The tenth kitten would have fallen with his brothers, but he fell out of consciousness first.

Shasta Cascade Club #133 Community Involvement

Shasta Cascade Hoo-Hoo Club #133 has been active in supporting a 35 million dollar local museum project. This project is called the Alliance of Redding Museums (ARM). During the summer of 1993, Club #133 donated materials and labor to construct a trellis around the greenhouse that will be a part of the employees' work area. The trellis enhances the environment of the museum and was built with material donated by Schaller Forest Products and Lumberjack, and labor by members Steve Clester, Charlie Tegge, Chris Schaller, and Andy Main.

This 35 million dollar museum project will eventually help to boost the Redding area economy by increasing tourism, providing new jobs during the construction period and helping to educate the public and students from local schools. The museum consists of a science museum, a forest museum, and an arboretum. This year's club president Steve Clester has been nominated to serve on the Forestry Museum Board, a three-year position.

CELEBRATING OUR 20TH YEAR • 1973-1993

WINEMA CLUB #216

January features the club's "annual" crab feed. About 140 members, guests, and sponsors met for our Employer's Night feast. Past president Wunder reported there was plenty of rolls, plenty of crab, plenty of cole slaw, beans and eggs. This is our employers and sponsors night as they contribute to the cost of this meeting. After dinner the club raffled about \$500 in money. Some out of town speakers gave their views on a few nice subjects, and a good time was had at this meeting.

February 12, 1994, the club held its Annual Valentine's Dinner-Dance. About 80 or so members, guests, and wives climbed aboard

continued on next page

Supreme Nine Reports and Club News

continued from previous page

two charter buses for an hour ride to Bly, Oregon. We arrived at the Sagebrush Inn about one hour late. One bus got lost coming to Klamath Falls.

Prexy Joe Wampler was in charge at this event, and it turned out great. The Hoo-Hoo-Ettes furnished table decorations and raffle prizes. Sponsor Rich Steyskal furnished a wooden lowboy truck and Ron Thomas again made booze cradles.

Don Applebaker gave a short "cowboy poetry" presentation. Then Joe Wampler gave out the Recognition Awards. Gil Hannigan was honored for his float work; P.P. Wunder received a life membership; and Bill Neubert was given the Merle Clark Award. Then the band played for dancing until 11:00 p.m.

The American Legion Club was the scene of the club's Logger's Night in March with about 53 members and guests gathering for the event. Mexican food was provided by Marias of Keno. It is always very good and always plenty of it. The club raffled off a gas-powered Weed Eater. Some loggers thought it was a mechanical timber harvester. Judging by the size of some of the trees being harvested in the northwest, it might work. W.K. Patterson was the winner of it.

John Monforth from Weyerhaeuser Company gave a short slide presentation about their tree farms and cattle grazing in their reproduction forest. It was very informative.

John and Hap Brown of J & H Brown Company were awarded the "loggers" of the year award for a slight oversight on some tree cuttings. It was a very good meeting.

-reported by Mark Hanna

NORTH CASCADE CLUB #230

North Cascade Hoo-Hoo Club greeted the new year in grand style with our annual beer and crab feed on January 19 at the Mt. Vernon Elks Club. As expected, the fresh Dungeness crab was fantastic, and a blockbuster turnout of 165 enthusiastic members and guests gave this meeting rave reviews. One of the highlights of our January meeting was a shotgun raffle, and this year's big winner was none other than past president John Denby. Congratulations, John!

Our February 15 meeting was held in beautiful Bellingham, Washington, at the Lakeway Inn. Some 50 members turned out for our "Logger's Night" program. Our speaker was Dave Doan of the Washington State Department of Natural Resources, who addressed the challenge of modern forestry, thinning techniques, cutting to length and new forest management practices.

The Swinomish Yacht Club in scenic LaConner was the site of our Past Presidents' Night and concat on March 15. After a gourmet salmon dinner, the club was proud to recognize ten past presidents, who were heartily greeted by about 100 members. North Cascade Hoo-Hoo is pleased to introduce 12 new kittens into our order. They are Larry Bates, Brian Lloyd, Earl Robinson, Mike Gaffney, David Fawns, David Mercer, Gary Maulin, Lee Zeigler, Dave Neilson, Don Anderson, Gary Erickson and Bob Hendren. WELCOME!

The members of North Cascade #230 send their best wishes for health, happiness, and long life to all.

-reported by Judge Godfrey L88601

J I V JURISDICTION

Following the mid-year board meeting, I spent a day with Ed Roche 62928, Rameses 61, in Chicago, and we talked long into the night.

On Australia Day (our foundation day) the Minister for Forests opened the Hoo-Hoo tower at Wilson Botanic Park. This is a \$60,000 lookout tower for the benefit of the community and built by Melbourne Club #217. Also on Australia Day we heard that our past president Kevin French 84421 had been awarded the Order of Australia Medal for services to forestry and the timber industry.

After the opening ceremony, Hoo-Hoo members and friends and members of the Berwick Dood Dorkers club journeyed home to our property at Macclesfield for a B-B-Que and swim. As it was a very hot day, many a can was enjoyed. Dick Campbell, Rameses 80, and his wife Diana were our house guests at the time, and Dick, known as the Singing Snark, entertained us all with his ukelele. A great Hoo-Hoo time was had by all. A meeting at Shepparton in Central Victoria was held by the North East Club #236 to attract new members for their club, or to form a new club.

Our J-IV mid-year board meeting was held in Sydney early March, and all vicegerents from every state and New Zealand attended. The meeting was held in Smith Brothers board room who looked after us in royal fashion. It was a long but excellent

meeting. J-IV is in good shape, administration sound, as are the finances, with a growing membership.

Following the board meeting, Sydney Club #215 held their club meeting where about 50 school teachers had been invited to enjoy the hospitality of Hoo-Hoo and to hear three excellent industry speakers give a balanced view of the environmental problem, particularly slanted for teachers and students. Sponsorship of some thousands of dollars for the next "Teach the Teachers" night was promised.

While in Sydney the luxury cruise ship, the Royal Viking Sun, was in port. Vancouver Club member Bob Fladgate 83930 and his wife Pat were on board. Doug and Sigrid Howick and Barbara and myself were right royally entertained for the evening. Catching up with friends is always enjoyable.

Melbourne Club #217 had seven people from Malaysia at their last meeting, and Lee Chiew Fook gave us a very clear picture of where Hoo-Hoo is going in Malaysia, and we have some idea of time slots to work around. We also had two timber people from Chile, and this country has great potential for Hoo-Hoo.

Presentations were made to Chris Rogers 94176 for his effort in promoting Hoo-Hoo and also to Graeme Smith 74395 for his work over 30 years.

In April, I will be in New Zealand visiting the three clubs and then Brisbane in May. Manjimup Club #250 is busily preparing for the J-IV Convention in September. Adelaide Club #212 is well into their yearly effort of tree seedling sales in the City Centre.

Nearly all our clubs have new kittens coming along, and our Hoo-Hoo year is very busy.

Health, Happiness, and Long Life.

MT. GAMBIER CLUB #214

Mount Gambier has been as busy as usual and finished the 1993 year in great style with a Christmas Ladies Evening at the Peking Palace Chinese Restaurant. Over 30 members and spouses gathered for a great night of fraternalism.

President Barry Hanson took the opportunity to announce the recent HHI decision to allow and to invite women into the order as full members. Several ladies present were working in the forest industries and commented very favorably. We hope to report further about our next convention.

A great meeting started 1994 on February 14 at the Southgate Hotel with 16 people attending and several apologies with some away. Guest speaker was Professor Bob Teskey of the University of Georgia. He is on secondment to the CSIRO Forest Research Station looking at benchmarking productivity of Radiata Pine and the reasons why such as water availability and uptake and forest management. Our pine is a very fast grower compared to elsewhere in the world. Bob was involved with Southern Pine and Loblolly. The talk topic was

MT. GAMBIER CLUB #214. Laurie Judd and David Douglas enjoy a refreshing break from the lawn bowling during Bowls Night in March.

"The Effect of the Environmental Movement on US Forestry." By the way, Hoo-Hoo is very active in Georgia and sponsors student awards at the university.

Hoo-Hoo Bowls Night was held March 2, 1994, on a fair but cool evening that was perfect for lawn bowling. Thirty people were arranged into eight teams, each skippered by a Hoo-Hoo identity assisted by seven members of the Bowling Club there to give "unbiased" assistance to the rookies. Hoo-Hoo Skippers were Judd, Parsons, Lowe, Hanson, Ward, Hay, Didwell, and Douglas.

Two games of eight ends were contested. Great battles ensued and bowling performances turned in which were at least interesting, if not skilled at rare times.

MT. GAMBIER CLUB #214. This group's scores were a closely guarded secret at Bowls Night, so we don't know why they look so happy. We can only guess and use our imaginations. Left to right, John Kentish, Robyn Parsons, Lew Parsons, and Russell Hay, vicegerent for South Australia.

Supreme Nine Reports and Club News

MT. GAMBIER CLUB #214. The old master, Geoff Doyle, shows members of his team how its done during the club's Bowls Night.

Late in the night and under pressure, promising bowler Greg Richardson upset the next rink with the wrong bias and a bowl feet off line going well right instead to the planned left. Margot Hay was a prominent lady bowler again despite harassment from husband Russell. Lew and Robyn Parsons fogged their own glasses with some of their own efforts. Dave Douglas brought an unusual golfing approach to the game, or was it cricket and bouncers?

At the final scoreboard, the winning skipper was club president Barry Hanson, two games up and up 20 shots. We had a tied second, Skippers Lew Parson and Dave Douglas both two games up and up seven shots. Michael Ward was a quiet NABA, "not a bowlers . . ." down two games and down 20 shots, but he promises tough competition next year!

Organizer John Hughes presented prizes of coffee mugs and champagne glasses and welcomed members. Brian Walker welcomed on behalf of the Bowling Club and was gratefully thanked by Hoo-Hoo club president Barry Hanson. Bowlers then relaxed with the time honored drinks, including warming port wines.

The club had an excellent Industry Tour on March 14 when several members bused to the Nangwarry Sawmill operated by Forwood Products. This recently modernized mill produces a wide range of kiln-dried sawn timber products from Radiata Pine and receives some of the larger and higher quality logs produc-

ing export quality products. Members dined at the Pines Hotel at Tarpeena, enroute to the sawmill. A very fine night added to the success of the tour.

The club also assisted the Institute of Foresters with forest tours on March 20th to celebrate World Forestry Day. Members of the public were escorted to a wide range of forest activities. These included forest management, nurseries, cuttings, seed orchards, tree-breeding, eucalypts and Radiata Pine, clear-felling, plantation establishment and fire management practices.

Russell Hay, vicegerent for South Australia, attended a very eventful Jurisdiction IV board meeting in Sydney which coincided with the Gay Mardi Gras. The J-IV board even stayed in Kings Cross, right in the heart of activities, prompting a lot of questions about the J-IV board. Anyway, at 1:30 in the morning on a hot and sticky night, the fire alarm in Russell's 450 bed hotel went off. Russell was only wearing jocks and socks! He duly evacuated to the pavement to join a lot of very unusually attired people of all sexual preferences to join a street party, fed lots of beer by an open hotel opposite. Russell remains coy about the rest of the evening, rather morning!!

The club's concat will be on April 11, or at the absolute latest in May.

-reported by Brian Page 82335

MELBOURNE CLUB #217

February's meeting proved that a good topic brings in the numbers. One hundred fifty attended and almost every major group was represented.

The more our club contributes to our industry with discussions of this style, the more support we can get from these groups in terms of meeting attendances and potential new members. I believe the future of our club is to structure our monthly dinners, not only to appeal to our members, but also to attract the interest and support of large organizations.

For our next meeting we are fortunate to have secured the services of Judd Webber who is Group Marketing Manager for CSR Softwoods. Judd's topic, "Radiata Pine - Its Versatility and Potential in the Marketplace," should prove to be informative and generate some lively discussions at question time.

Our industry is one of constant changes. We must make sure we are continually updating ourselves to allow us to move forward and meet these changes head-on.

Long Life, Health, and Happiness,
Tony Scerri 91265

JURISDICTION

Well, here I sit, broken hearted. Came to write and can't get started. Honestly, I don't know where to start.

We had the midterm board meetings in February in Gurdon, and it's amazing how much one can learn about Hoo-Hoo at these meetings. It was my first and very educational for me. We covered many items that had to be dealt with and, hopefully, for the good of Hoo-Hoo made the right decisions.

The ideas one can pick up at these meetings are very informative, and if they can be applied to clubs in your jurisdiction, so much the better.

Snark Manny Litvin L60272 chaired the meeting and did a great job. Well done.

I really hated to return to Toronto after enjoying the warm hospitality and warm weather in Gurdon. When I got off the plane, it was more freezing weather and more snow. This is the worst winter Ontario has had in 50 years. It will probably be June before the frost is out of the ground and anyone can start digging foundations for new homes.

Toronto Club #53 had a concat on February 21, and inducted eight new members. They had more but due to weather and illness some could not make it but will be concatenated at a later date.

President Dave Morrow 92628 and secretary Cheryl Brown have again kept up the good fight and are really carrying the club at this time. Well done, Dave and Cheryl. Hopefully, you will get some support from the new members. New members, new ideas.

Vancouver Club #48 has everyone working hard on this year's convention. I'm sure there will be more in this issue from the Vancouver Club. Victoria Club #183 is still holding on. Not much to report, but keep it going, guys.

Cowichan Club #228 is having a fund raiser in March, and deputy S-9 Fred Frudd 73230 tells me they are doing well.

Finally, I would like to report that by the time you read this, the Kitchener Octoberfest Club will be reinstated. I have set up a meeting there for April, and with eleven very interested past members, I'm sure it will be full speed ahead. I am hoping with the eleven past members showing this interest, they will encourage more past members to rejoin and recruit new members, as well. I have also been in contact with Ralph Ayers, a past member of the Toronto Club, who now lives in Kelownia, B.C., to help me reactivate the old Kamloops and Okanagan, B.C., clubs. Maybe between the two old clubs we can get on going. I'll let you know how I make out.

See you all at Whistler in September.

Health, Happiness, and Long Life.

TORONTO CLUB #53

It happened on February 21, 1994, at the annual concat. Members, new and old, gathered at Trump's to honor our latest group of kittens. And what an illustrious group they were. There was Paul Kehoe, John Symanski, Jeff Creighton, and Dave Townsend, along with Bernie Bodogh who is the second generation of the Bodogh family to join Hoo-Hoo. In 1975 the Toronto Club introduced the bylaw change that deleted the word male from associate membership in Hoo-Hoo to open the door for Cathy Parker to become our first associate member. The Toronto Club was the first to propose deleting the word male from all Hoo-Hoo International bylaws leading the way for the legislation to be changed last September. During those years Cheryl Brown was an inspirational, solid, hard-working member of the Toronto Club Executive. She now joins Cathy Parker as the first female members of the Toronto Club to become full members of Hoo-Hoo International. Our congratulations to our eight newest members and to Cathy and Cheryl a special thank you for their continued belief that we would get the job done.

The Toronto Club would like to extend a special invitation to our other associate members to receive the honor they so richly deserve.

On the Degree Team for this memorable occasion was Andy Zuidema who drove in from Midland to participate. Andy went with the Toronto delegation to the '93 Convention in Sioux Falls and was part of that historic concatenation. There was past president Jim Coats; past president Bob Seldon; past Snark and Rameses 69 Bill Bader; past president and past Supreme Nine Lynn Edey; past president and current Supreme Nine Norm Thomas; golf tournament chairman Ernie Warnica; past treasurer Keith Warren; Jim (Smokey the Bear) Ralph and Stu Teal. The Cat Tamer was Dave Morrow, our current president.

At the conclusion of the concat, president Dave presented a gift on behalf of the Toronto Club to past president Jim Coats 67769 to mark the occasion of his retirement from the Ontario Forestry Association after 42 years of service as the executive director. Good luck, Jim. Enjoy.

To all of you who missed this great evening of camaraderie, we look forward to seeing you at the next one.

TORONTO CLUB #53. Club president Dave Morrow, left, presented retiring Ontario Forestry Association Executive Director and Toronto Club #53 1966 past president, Jim Coats, with a parting gift from the club.

COWICHAN VALLEY CLUB #229

A fire in the workplace is something everyone in the lumber industry fears. A longtime member of the Cowichan Valley Hoo-Hoo Club, Jerry Doman, recently went through that gut-wrenching experience.

Following is a reprint of an article that appeared in The Cowichan News Leader newspaper in Duncan, British Columbia, written by Robyn Swanson, that gives an account of the details:

A blaze that ravaged a Chemainus remanufacturing plant has jeopardized employment for 50 workers and threatened the livelihood of the plant's four owners.

"I felt sick," Chemainus Forest Products' co-owner Jerry Doman said about his reaction to the fire. "We all did. We're a hands-on operation and we've built this thing from the beginning."

Doman arrived on the scene at about 10 p.m. January 29 to find the plant's planer mill reduced to smoldering remnants.

"It was totally destroyed," he said.

It's not known what time the fire started but Chemainus's volunteer fire department received a call at about 9:20 p.m. By the time firefighters pulled up to the Trans Canada Highway location, the plant was engulfed in flames.

"My boys did the best they could," said Fire Chief Tom Millard. "It was fully involved."

He guessed that thick fog may have hampered early detection and helped the fire gain hold. Doman agreed.

"It was pretty socked in," he said. "(The fire) kind of looked like it was a glow."

Chemainus RCMP Sgt. Don Butler said the incident is being treated as an accidental fire.

Doman estimated the inferno caused more than \$1 million damage. The company is insured, but he hasn't determined the total associated costs.

While the fire razed the five-year-old planer mill, it hasn't flattened the owners' resolve to continue work and keep their staff employed. A handful of the 50 full-time employees returned to their jobs three days after the fire and Doman hoped the remainder would be back at work the following week.

Staff are attempting to ensure a less damaged portion of the mill would be in operation as soon as the main power source was in working order. The company has also made arrangements with Futura Forest Products Ltd. to lease a vacant planer.

"We hope it will keep our people working," said Doman. "It won't be a profitable venture for us but it will keep our business going."

The company will continue to buy rough cut lumber and manufacture it for worldwide export as well as carry out custom work for larger companies, Doman said. There may, however, be some delays.

"We're going to be behind and we might not make our deadlines," Doman said. "It's just one of those things."

Meantime, the Cowichan Valley Hoo-Hoo Club is contributing \$5,000 this spring to have students in School District 65 bused to the B.C. Forest Museum in Duncan and then back to their respective schools again, said president Mike Osborn.

This allows students to take part in the museum's educational program, something that hasn't always been possible in the past due to cutbacks in the school district. "Last year we didn't have many kids from the School District (at the museum), other than with their parents," said Osborn.

continued from page 38

December 9 - San Diego Club #3 held a concat and brought in six kittens. Our new members are Robbie Lightermost, Rick Joseph, Tom Widman, Ski Knowles, Jim Durnil and Ted Peach. Cat-tamers Ron Martinez 96002 and Sal Camarda 96542 did a resplendent job. President Dan Colburn 95038 passed the pin and gavel to Dick Yoder 79793 for the 1993-1994 year.

January 17 - With the Snark of the Universe we started the annual trek across Northern California. Our first stop was with Sacramento Club #108. A concat was held at the Camelia Room of the Tuesday Club in downtown Sacramento. Two new kittens are Randy Lewis and James Owens. Greg Fish 95295 was cat tamer. Vicegerent Snark Rick Troxel 95299 was in charge with 21 members in attendance. With us for the evening's festivities were Brent Crosby L77009, Rameses #83, and my deputy supreme nine, Scott Watson 83559.

January 18 - Our next stop was in Gilroy with the Coast Counties Club #114 at the Station 55 restaurant. My deputy supreme nine and club president Bill Sullivan 94720 presided over the concat with Sarah Kirk brought into our Order with 22 present. Thanks to secretary/treasurer Brian Pierce 94717 and Bob Davids 95074 for all their help. Over from Oakland Club #39 was Frank Kenney 87819 and Brent Crosby 77009, Rameses #83.

January 19 - The Snark and I attended Industry night in Ukiah at the Broiler Steak House with the Black Bart Club #181. Vicegerent snark Ken Carter 90731 was M.C. for this dinner meeting. Eighty-six members and guests were out for this evening of fun. Thanks again this year for the raffle ticket sale being handled by the Hoo-Hoo Ette Club #16, again doing a superior job. My special thanks to my state deputy snark Gary Gamble 79683 for his valued work for me in the area.

January 20 - We met with over 310 members and guests at the 22nd Annual Humbolt Hoo-Hoo Club #63 Crab Feed held at the historic Eureka Inn in Eureka. True friendship and fraternization, this evening, is the finest within the forest products industry in North America. With highest qualification Rich Giacone 96283 did an excellent job chairing this mega-extravaganza crab feed. My special thanks to Rich for the courtesies shown me as Supreme Nine.

January 21 - Shasta Cascade Club #133 brought 10 kittens into our fraternity this night at the Red Lion in Redding with 56 great Hoo-Hoo disciples in attendance. The new kittens are Dan Williams, Brad Snodgrass, Peter Rogers, Mike Wylde, Hardy

Vestal, Wes Lane, Tony Phillips, William Barron, and David Darnell. As I said last year, no Hoo-Hoo should miss this concat. Thanks to vicegerent snark Chris Schaller 90454 and Club #133 officers Steve Clester 92224, Charlie Teggie 93955, Trey Humphrey 92230, Andy Main L88870, and Joe Silveira 92240. It was nice to have Chairman of the Board Dave Blasen 53110 with us in Eureka and Redding.

During my trip to Northern California I want to thank Jimmy Jones L72703, Rameses #72, and David Jones L82806, past supreme nine J-VI, for their support and companionship.

January 28 - I attended a concat held by Inland Empire Club #117 in Riverside at the Indian Hills Country Club. The "9" new members are Francisco Noriega, Andrew Kice, Robert Ueberroth, Kelly Lyon, Robert Hall, John Dennis, Thomas Urquiza, William Shaw, and Ken Pinowar. Everything was handled by president Don Gregson 91492 and cat tamer Rick Deen 93838. Thanks to Mike Nicholson 89383, state deputy snark, for being visiting officer.

February 4 - The first day of the international board meeting in Gurdon at our office and museum.

February 5 - The second day of our board meeting. Again Charles and Anita Cabe hosted a cocktail hour and dinner at their home for those attending the board meeting. My sincere gratitude for a delightful evening.

February 13 - Norma and I joined the Honolulu Club #142 at the Oahu Country Club for their Valentines' Dinner. A sumptuous buffet was enjoyed by the Hoo-Hoos and their wives. This event was chaired by president Mel Shiroma 94303. In attendance were Jim Jones L72703, Rameses #72, and his wife Betty. Our thanks to vicegerent snark Howard Hisamoto 82420 and deputy supreme nine Dave Rinell 71186 and his wife Annette for being gracious hosts.

March 15 - A concat was held by the Phoenix Club #72. Our "9" new members are Chris Elsworth, Rob Denny, Mike Baker, John Blodgett, Jim Renke, Joe Thorton, Lee Nelms, Pat Molumby, and Mike Balanda. The concat was held in conjunction with a golf tournament in Scottsdale in which 64 Hoo-Hoos and guests took part. My thanks to president Bill Swaney 92093 and secretary/treasurer Chuck Pensinger 70229 for their outstanding work with the club.

March 16 - The Eighth Annual Roast and Old Timers Night was held by Inland Empire Club #117 at the Pyrenees Restaurant with golf preceding. The "Old Timer" was a past roastee, Don Derbes 52884. Roasted this evening was Edward Neil, or better

Supreme Nine Reports and Club News

known as "Butch" Baumann 79877, as we found out. On the dais poking the fun was club-president Don Gregson 91492, Ralph Crabtree 83024, and Duight Hayes 80527. Fifty-three attended this function.

March 17 - San Diego Club #3 held its Speakers Night at the Red Fox Inn. The informative speaker was Bob Fischer of Trus Joist MacMillan. A fine steak dinner was enjoyed by over thirty. Club president Dick Yoder 79753 presided over the meeting.

With me the last three days was Snark of the Universe Manny Litvin L60272, enjoying the friendship of the Southwest.

I traveled a lot of miles the last couple of months to be with you, the members, in Jurisdiction VI, and I can honestly say I enjoyed being with all of you and thank you for all you have done for our Order. Keep up the good work.

Health, Happiness, and Long Life.

Ed Gavotto L63822

Supreme Nine, Jurisdiction VI

Scholarship Fund. Don Johnson is chairman. This event has always been an enjoyable one, and we believe it will be even more so since the proceeds will go to a very worthwhile cause.

-excerpts from the club's newsletter

PHOENIX CLUB #72

Happy, Happy, Happy New Year, Happy, Happy New Year, Happy New Year!!

We ended up 1993 with such a good outing with 44 golfers, dinner, golf balls and prizes, and 1994 started with a bang at the Pima Pavillions Golf Resort. Forty-one golfers turned out. Steve Garrison shot a fine 63, and Mel Williams fired a great 66. Wally Pensinger, John LoPresti and Bill Simon won on the NET side. Closest to the pins were Doug McCullough and Leslie Lynton. Nice golf.

We have two more reinstatements. They are Mel Williams of Boise Cascade Corporation and Duane Ottum of Mallico. Glad to have you both back in the fold.

In February the club held its Sweetheart's Dance at Bud Brown's Barn. The golf event for the month was at Villa DePaz Golf Resort. The winners were Pete LaValley, Mike Baker, Armondo Mendoza, and Terry Burkholder. Shame on you guys who did not play at Villa DePaz. The golf course was outstanding, great fairways and greens. Really a well kept course.

March was concat month, and boy did we ever get a good turn out. We had nine new kittens taken into the fold. They are Mike Balada, Mike Baker, John Blodgett, Rob Denny, Chris Elsworth, Pat Molumby, Lee Nelms, Jim Renke, and Joe Thorton. Not only did we have the kittens, but we had the Snark

of the Universe, Manny Litvin, and Supreme Nine from Jurisdiction VI, Ed Gavotto. We had 64 reservations for dinner and 58 golfers. A great time was had by all. Jim Remke and Marvin Phelps won closest to the pin, and Corby Biddle won the low gross award while Larry Tostenson and Dwayne Fulbright won the low net awards.

The April outing will be at Oakwood Country Club in Sun Lakes, Arizona.

Health, Happiness, and Long Life.

-Chuck Pensinger

SACRAMENTO CLUB #109

Sacramento Hoo-Hoo Club #109 was honored to have as its guest on January 17, 1994, Snark of the Universe, Manny Litvin. Manny was on his West Coast swing and made the Sacramento Club his first of many stops for the week.

The Sacramento Club had its annual concat on the 17th to coincide with the visit from the Snark. It works out very well as the Snark acts as visiting officer on the degree team, and the kittens have the honor of meeting the Snark. We were disappointed this year to have only two kittens, but if they will be active, it will be better than some years when we had six or seven kittens and came up with none active.

The February meeting was at the comedy club Knuckleheads.

Health, Happiness, and Long Life.

Dick Kidder

SACRAMENTO CLUB #109. Left to right, Jerry Baldwin of Capitol Plywood, Manny Litvin, Snark of the Universe, Brent Crosby, Rameses #83, and Les Valentine, retired from Folsom Lumber, enjoy the social hour at the club's January meeting.

SACRAMENTO CLUB #109. Left to right, Ed Gavotto, Supreme Nine, J-VI, Scott Watson, deputy S-9, and Rick Troxel, vicegerent for the Sacramento Club.

SACRAMENTO CLUB #109. New kittens concat in January are James Owens, left, and Randy Lewis.

J VIII JURISDICTION

My travels have been somewhat limited through J-VIII these last three months. In January, I attended my local club, Metroplex #242 for dinner and tax night. The treasurer of our club, John Hasse, gave us some insight on some of the tax law changes that will help the government to put more of our income to use.

February brought me to the mid-year board meeting in Gurdon. It seems to me that some positive changes are being considered for the good of our membership. These changes will be presented to our members before the year is out. Much work and many hours of dedicated service takes place by the people that have already served at the international level. Knowing that I belong to an organization with members that have such dedication tells me why I enjoy the Hoo-Hoo family.

After the board meeting I had a chance to go over to Mississippi and meet Paul Bradshaw, president of the Magnolia Club #111. I plan to return this spring to attend their annual golf tournament.

For a little rest and relaxation at the end of February, I shared the fellowship with the S-9 of J-I, Kevin MacPhee, at his family retreat in Hilton Head, South Carolina. Also there to join us was First Vice President E.Z. Hunt who was giving us some "putting" lessons.

March kept me close to home with time to make plans for April. My local club #242 is having a good ole Texas chili cook-off, which is being held at Lee Roy Jordan's Redwood Lumber Yard in Dallas. We always have a good time at this annual event. I also have the honor to travel with Snark Manny Litvin and his wife Bernice to some of the clubs in J-VII.

My next report will include the events that take place in April, May and June.

Health, Happiness, and Long Life.
Tom R. Lynn L89592
Supreme Nine, Jurisdiction VII

J VIII JURISDICTION

The clubs in J-VIII seem to be very active. Although it is a little early to get a complete tally of members, it appears that an increase in membership in J-VIII is a very good possibility. Nineteen new members were concatenated at the Twin Cities Club #102 in January. The Sioux Falls Club concatenated twelve in February. The Omaha Club will hold its second concat on April 4 and Central Iowa #102 held one on March 14. All the clubs seem to be busy with activities that all help make a club stronger.

Video Library established at the Hoo-Hoo Museum

The Hoo-Hoo Museum has established a video lending library for use by the clubs. These videos are both educational and entertaining. One video shows life in the logging camps in 1920s and 30s, including the high climber topping out a spar tree at 150 feet in height. Another, just completed in 1994, tells the story of Mt. St. Helens before, during, and after the eruption on May 18, 1980. You will see the force of nature as it demolished homes, logging camps, and bridges with a sea of mud and water that reached heights of over 20 feet.

A complete list of videos can be obtained from the office in Gurdon. The individual videos can be ordered by calling the office at 501-353-4997 or fax 501-353-4151.

In addition to our own library, the American Forest and Paper has a large number (approximately 100 videos) available for loan to clubs. Gurdon also can furnish you with a copy of their library. If you wish to order direct, call Lori Rutt at 202-463-2773.

Selecting the appropriate video can provide excellent material for your club meeting or for showing to civic organizations.

Supreme Nine Reports and Club News

continued from previous page

I wish to add a special request to all the clubs in J-VIII. My term as Supreme Nine will end in September. I encourage all in J-VIII to think about running for this office. I have enjoyed this experience.

Will be visiting the clubs in J-VIII along with the Snark of the Universe in June.

Health, Happiness, and Long Life.

Royce M. Munderloh 84331

Supreme Nine, Jurisdiction VIII

CENTRAL MINNESOTA CLUB #91

A concat for new members, reinstatement of old members, and transfer of membership is being held on April 13, 1994, at the East Side VFW in St. Cloud, Minnesota.

-excerpt from the club's newsletter

Presenting this year's Forest Products Marketing scholarships at the banquet were, left to right, David Nelson, Don Bleise, Dave Larson, and Paul Trovecke of the Twin Cities Hoo-Hoo Club #12. Steve Lovala, a junior in Forest Products Marketing, is pictured receiving a \$1,000 Forest Products Marketing Scholarship. Jeff Callinan also received a \$1,000 scholarship, but was unable to attend the banquet.

A total of twenty students received scholarships at the University of Minnesota's Annual Forest Products Scholarship Recognition Banquet. The scholarships were awarded for academic achievement and professional promise.

Two of the scholarships awarded at the banquet are funded by the Twin Cities Hoo-Hoo Club #12. The Forest Products Marketing Scholarships are made possible through the continued support of Club #12 and were originated in 1954 by the creation of the Hoo-Hoo Immortals Memorial Scholarship Fund. The fund was established to recognize the efforts of six Immortals, Sam L. Boyd, Ted T. Jones, Harry T. Kendall, Ormie C. Lance, Thomas M. Partridge, and William M. Wattson and is dedicated to the deep interest of these lumber industry leaders in the education, training and encouragement of young men and women. Steve Kovala and Jeff Callinan each received a \$1000 Forest Products Marketing scholarship.

On January 20, 1994, at the Olympic/PPG Factory Finishing Conference recently held in Las Vegas, Nevada, Cedar Siding and Lumber, Inc. was presented with the "Innovation Award" for creative marketing and production processes.

Cedar Siding was honored for its many new ideas and marketing strategies in 1993. Cedar Siding had a large increase in its number of gallons used from the previous year.

One of the innovative products introduced by Cedar Siding was their "Premium Plus" program. "Premium Plus" is 11/16 x 8 KD Bevel 100% tight knot stained 2 coats with the back primed, and packaged in one square cartons. "Premium Plus" offers a 15-year finish warranty from Olympic Stain and a 30-year substrate warranty from Cedar Siding and Lumber, Inc.

CENTRAL IOWA CLUB #102

On January 6 and 7, 1994, the Central Iowa Hoo-Hoo club #102 exhibited during the Iowa Lumber Convention in Des Moines, IA. Their booth space, donated by the Northwestern Lumber Association, allowed the club to inform convention attendees of club activities as well as to recruit new members. A contest offering a free club membership was used to help gather names of potential new members. Randy Coats, Litzel Lumber Company of Ames, IA, was the lucky winner of one year's paid membership in the club.

The club held a concatenation on March 14 to bring the new members into the club. The concatenation was preceded by a catered chicken dinner. The club is grateful to Mr. Sam Carmichael for hosting the event.

The Annual Golf Outing is planned for May 23rd.
-reported by Rich White 94814

CENTRAL IOWA CLUB #102. Club president Jack Leachman, left, and S-9, J-VIII, Royce Munderloh, look on as Kristy Smith signs up to win a one years paid membership in Club #102.

SIoux VALLEY CLUB #118

February 15, 1994, we concatenated ten new kittens, including our first two women. The concatenation was held during the 75th Anniversary of the South Dakota Retail Lumbermen's Annual Convention. We welcomed Royce Munderloh, Supreme Nine from Jurisdiction VIII, as our visiting officer. The concatenation was well attended and a big thank you to all who made this happen. We are anxiously waiting for spring/summer so we can all get out and enjoy continuing Hoo-Hoo fun and activities.

Winners of door prizes and raffle ticket prizes were Terry Redlin, Jim Aalbers, Randy Landhuis, Curtis Schempp, and David Riley.

Sponsors who helped support Sioux Valley Club #118 during the 1994 South Dakota Lumbermen's Convention were Allied Midwest Merchandisers, API Supply Co., Building Products Inc., Certain-Teed (Roofing), Component Mfg., Daniels-Olsen Bldg. Products, Independent Millwork, Jones Lumber, Jordan Millwork Co., Larson Mfg. Co., Parco, Inc., Shelter Products Inc., RB Tank Co., Sprenger Midwest Inc., Tri Angle Marketing, and Twin City Concrete. Our thanks to all.

Life Notice

In reality, this is a Life Notice: Because for it, the world would never have known that our Hoo-Hoo member had ever lived. . .

JAMES A. McARTHUR, JR. 75012
Eureka, California
Member Humboldt Hoo-Hoo Club #63

ARNOLD J. FRIENDSHUH #77562
Richfield, Minnesota
Member Twin Cities Hoo-Hoo Club #12

Arnold J. Firendshuh, 80, a employee of Carpenter Lumber Company for 59 years, died recently. He was active in civic and government work and was a founding member of the Bloomington Fire Department, serving for twenty years as its chief. He also served on the city council and was active in his church. His wife, Margaret, died in 1982. He is survived by a three sons, three daughters, nine grandchildren, and three great-grandchildren.

WILFRED E. GITS L47310
Star Prairie, Minnesota
Member Twin Cities Hoo-Hoo Club #12

NOLAN R. MORRISON #96229
Houston, Texas 77095
Member Houston Hoo-Hoo Club #23

STAN O. NORMAN #48557
Portland, Oregon
Member Portland Hoo-Hoo Club #47

Stan O. Norman, age 77, a longtime Portland lumberman died recently. His lumber career began with Templeton Lumber Company shortly before World War II began. After serving on a tanker in the Pacific Ocean during the war, Stan returned to Templeton which later became part of Boise Cascade Corporation. He retired in 1986 after 45 years with the two companies. He is survived by his wife, Clarice, two daughters, two sons, and five grandchildren.

ROBERT E. NELSON #52348
Gold Hill, Oregon
Member Rogue Valley Hoo-Hoo Club #94

Robert e. Nelson, 76, passed away in February. Following World War II, Mr. Nelson founded Neely-Nelson Lumber Co. with Clinton Neely and later became its sole owner. He served in the Army Air Corps during the war and was awarded the Silver Star, Bronze Star, and two Air Medals. Among his survivors are his wife, Audrey, a daughter, a son, and four grandchildren.

JIM VAN EVERY #73185
Southfield, Michigan
Member Detroit Hoo-Hoo Club #28

Jim Van Every was a dedicated member of Detroit Club #28 for over 30 years and a member of the Detroit lumber scene for 40 years. He passed away in February. Among his survivors are his wife, Nadine, two sons, 3 grandchildren, and his brother, Rameses #73, Bob Van Every.

HUBERT (BERT) WHITESIDE
Mt. Gambier, South Australia
Member Mt. Gambier Hoo-Hoo Club #214

Bert died in very unfortunate circumstances at Easter. He was 83 years old and was a founding member of Club #214. Until his retirement, he was the mill manager at the Woods and Forest Department. A veteran of World War II, Bert was renowned for his sense of humor. He lived very truly to the ethics of Hoo-Hoo.

NAGAO YAMADA L71192
Honolulu, Hawaii
Member Honolulu Hoo-Hoo Club #142

Nagao "Yama" Yamada passed away on January 12, 1994, at the age of 71. He worked for MidPac Lumber Company for more than 30 years before his retirement in 1988. "Yama" served as club president on three separate occasions and was an active lifetime member of the club. He is survived by his wife, Shigeiko, three daughters, and one grandson.
